Technical Session Table of Contents

Session T1A: Keynote - "Engineering as a Human Endeavor", William Wulf
Chair: Melinda Piket-May and James Avery, University of Colorado at Boulder
Time and place: Thursday, 8:30 am - 9:30 am  Westminster 3 & 4

KEYNOTE - ENGINEERING AS A HUMAN ENDEAVOR .................................................. 59
William Wulf, National Academy of Engineering

Session T2A: Successful Students
Chair: Elizabeth A. Eschenbach, Humboldt State University
Time and place: Thursday, 10:00 am - 11:45 am  Cotton Creek I

THE STUDY STRATEGIES OF ACADEMICALLY SUCCESSFUL STUDENTS AT THE COLORADO
SCHOOL OF MINES ........................................................................................................... 59
Ruth A. Streveler, Colorado School of Mines, Tawni Hoeglund, Colorado School of Mines and Carla
Stein, Western Nebraska Community College

A RETROSPECTIVE PROFILE OF ELECTRICAL ENGINEERING GRADUATES FROM THE FAMU-FSU
COLLEGE OF ENGINEERING ............................................................................................ 59
Leslie Inniss, Florida A&M University and Reginald Perry, FAMU-FSU College of Engineering

WORK IN PROGRESS - CHARACTERISTICS OF STUDENTS WHO FAILED (OR SUCCEEDED) THE
INTRODUCTORY CS COURSE ............................................................................................. 59
Judith Gal-Ezer, The Open University of Israel, Tamar Vilner, The Open University of Israel and Ela
Zur, The Open University of Israel

PREDICTING STUDENT PERFORMANCE: AN APPLICATION OF DATA MINING METHODS WITH
AN EDUCATIONAL WEB-BASED SYSTEM ......................................................................... 60
Behrouz Minaei-Bidgoli, Michigan State University, Deborah A. Kashy, Michigan State University,
Gerd Kortemeyer, Michigan State University and William F. Punch, Michigan State University

A STRUCTURAL MODEL OF ENGINEERING STUDENTS SUCCESS AND PERSISTENCE .......... 60
Brian F. French, Purdue University, Jason C. Immekus, Purdue University and William Oakes, Pur-
due University

ENGINEERING SCHOLARS PROGRAM AT FAU .................................................................. 60
Sam Hsu, Florida Atlantic University, Sharon Schlossberg, Florida Atlantic University and Karl
Stevens, Florida Atlantic University

Session T2B: Assessment and Information Technology
Chair: Susan Haag, Arizona State University
Time and place: Thursday, 10:00 am - 11:45 am  Cotton Creek II

WORK IN PROGRESS - NUMBERS ARE NO SUBSTITUTE FOR JUDGEMENT .......................... 60
Frank S. Barnes, University of Colorado at Boulder

A CD-ROM BASED LABORATORY IN FLUID MECHANICS PART II: COURSE ASSESSMENT AND EVALUATION . 61
Gary R. Crossman, Old Dominion University and Tarek M. Abdel-Salam, Old Dominion University

WORK IN PROGRESS - DEVELOPING AND ASSESSING AN ONLINE PORTFOLIO SYSTEM ........ 61
Matthew I. Campbell, University of Texas at Austin and Kathy J. Schmidt, University of Texas at
Austin

WORK IN PROGRESS - AN ONLINE ASSESSMENT SYSTEM TO ENHANCE TEACHING AND LEARNING
IN ENGINEERING ............................................................................................................. 61
Betsy M. Aller, Western Michigan University, Colleen Phillips, Western Michigan University,
Edmund Tsang, Western Michigan University, Andrew A. Kline, Western Michigan University and
Raja Aravamuthan, Western Michigan University

CHOOSING APPROPRIATE METHODS FOR EVALUATING AND IMPROVING THE LEARNING PROCESS
IN DISTANCE PROGRAMMING COURSES ...................................................................... 61
Veijo Meisalo, University of Helsinki, Erkki Sutinen, University of Joensuu and Sirpa Torvinen,
University of Joensuu

ENHANCING ABET EC2000 PREPARATION USING A WEB-BASED SURVEY/REPORTING TOOL .......... 61
Fong Mak, Gannon University, Stephen Frezza, Gannon University and Wook-Sung Yoo, Gannon
University
Session T2C: Teaching Computer Networking

Chair: Victor Nelson, Auburn University

Time and place: Thursday, 10:00 am - 11:45 am

Session T2C: Teaching Computer Networking

Chair: Victor Nelson, Auburn University

Time and place: Thursday, 10:00 am - 11:45 am

Meadowbrook I

A VISUALIZATION SYSTEM FOR SLIDING WINDOWS PROTOCOLS
David Henry, Linux NetworX and Yashwant K. Malaiya, Colorado State University

WORK IN PROGRESS - TEACHING WIRELESS NETWORKING AND SECURITY WITH JAVA 2 MICRO EDITION (J2ME)
Cheer-sun D. Yang, West Chester University

WEB ENABLED REMOTE LABORATORY (R-LAB) FRAMEWORK
Ji Hua, University of Massachusetts Amherst and Aura Ganz, University of Massachusetts Amherst

AN INNOVATIVE HANDS-ON LABORATORY FOR TEACHING A NETWORKING COURSE
Yasuhiro Nakagawa, Chiba Institute of Technology, Hiroshi Suda, Chiba Institute of Technology, Masahiro Ukiyai, Chiba Institute of Technology and Yoshiro Miida, Chiba Institute of Technology

LAB EXERCISES AND LEARNING ACTIVITIES FOR COURSES IN COMPUTER NETWORKS
David R. Surma, Indiana University South Bend

PREPARING FOR TCP/IP: THE ROLE OF CSA
Rob Williams, University of West of England

Session T2D: Entrepreneurship

Chair: Michael J. Pavelich, Colorado School of Mines

Time and place: Thursday, 10:00 am - 11:45 am

Meadowbrook II

HOLISTIC APPROACH FOR TECHNOLOGY ENTREPRENEURSHIP IN ENGINEERING
David F. Barbe, University of Maryland, Scott A. Magids, University of Maryland and Karen S. Thornton, University of Maryland

CREATING A VIRTUAL COMPANY AND KEEPING IT "IN THE BLACK"
David H. Stone, Michigan Technological University

ON SUPERVISING PATENTABLE JUNIOR PROJECTS
Joseph Joseph, Oregon Institute of Technology

WORK IN PROGRESS - ENVIRONMENTAL CONDITIONS THAT LEAD TO INVENTION AMONG ENGINEERS: A PRELIMINARY INVESTIGATION
Loutfallah Georges Chedid, Wentworth Institute of Technology and Harvard Graduate School of Education and Barbara A. Karanian, Wentworth Institute of Technology

IMPLEMENTATION AND INITIAL ASSESSMENT OF THE ENTERPRISE PROGRAM AT MICHIGAN TECH
Sheryl A. Sorby, Michigan Technological University

Session T2E: Signals and Systems

Chair: James Rowland, University of Kansas

Time and place: Thursday, 10:00 am - 11:45 am

Waverly

INTERACTIVE FOURIER CONCEPTS: COMPUTING TOOLS FOR BUILDING INTUITION
Jerry Hamann, University of Wyoming, Robert Kubichek, University of Wyoming and John Pierre, University of Wyoming

ASSESSING LABORATORY EFFECTIVENESS IN ELECTRICAL ENGINEERING COURSES
Srilakha Srinivasan, UNL, Lance C. Pérez, UNL, Robert D. Palmer, UNL, Michael F. Anderson, UNL and A. John Boye, UNL

ADVANCED CONCEPTS IN TIME-FREQUENCY SIGNAL PROCESSING MADE SIMPLE
Moushumi Zaman, Arizona State University, Antonia Papandreou-Suppappola, Arizona State University and Andreas Spanias, Arizona State University

ASSESSMENT OF THE JAVA-DSP (J-DSP) ON-LINE LABORATORY SOFTWARE
Andreas Spanias, Professor, Khawza I.U. Ahmed, Student, Antonia Papandreou-Suppappola, Professor and Mosunumi Zaman, Student

WORK IN PROGRESS - WEB-BASED VIDEO FOR SIGNALS AND SYSTEMS
Alan Desrochers, Rensselaer Polytechnic Institute and Michael Wozny, Rensselaer Polytechnic Institute

STUDENT MISCONCEPTIONS IN SIGNALS AND SYSTEMS AND THEIR ORIGINS
Reem Nasr, Boston University, Steven R. Hall, Massachusetts Institute of Technology and Peter Garik, Boston University
Session T2F: Issues in Designing Computing Curricula

Chair: Stephen Seidman, New Jersey Institute of Technology

Time and place: Thursday, 10:00 am - 11:45 am

Windsor

IMPLEMENTING THE INTELLIGENT SYSTEMS KNOWLEDGE UNITS OF COMPUTING CURRICULA 2001 ........ 65
Ingrid Russell, University of Hartford and Todd Neller, Gettysburg College

WORK IN PROGRESS - TOP-DOWN LEARNING NAVIGATOR BASED ON THE CELLULAR MODELS .............. 65
Tomomi Abe, Graduate School of Computer and Information Sciences, Hosei University, Shuichi Yukita, Graduate School of Computer and Information Sciences, Hosei University and Tosiyasu L. Kunii, IT Institute, Kanazawa Institute of Technology

TOP-DOWN EDUCATION FOR DIGITAL LOGIC DESIGN COURSE BASED ON CELLULAR METHODS .......... 66
Norihiro Fujii, Computer and Information Sciences Hosei University, Atsutoshi Imai, Computer and Information Sciences Hosei University, Tomomi Abe, Computer and Information Sciences Hosei University, Niki Suzuta, Computer and Information Sciences Hosei University, Shuichi Yukita, Faculty of Computer and Information Sciences Hosei University, Tosiyasu L. Kunii, Graduate School of Kanazawa Institute of Technology and Nobuhiko Koike, Faculty of Computer and Information Sciences Hosei University

DEVELOPMENT OF TOPDOWN COURWARE BASED ON THE CELLULAR MODELS ............................... 66
Shuichi Yukita, Hosei University and Tosiyasu Laurence Kunii, Kanazawa Institute Technology

WORK IN PROGRESS - COULD COMPUTER GAME DESIGN BECOME A CORE SUBJECT FOR ENGINEERING? 66
Paul Coulton, Lancaster University and Reuben Edwards, Lancaster University

WORK IN PROGRESS - EXPERIENCES IMPLANTING THE EUROPEAN CREDIT SYSTEM (ECTS) IN THE ELECTRICAL AND COMPUTER ENGINEERING DEPARTMENT - UNED ............................... 66
Antonio Colmenar, UNED, Jose Bañon, Universidad de Alcalá, Daniel Meziat, Universidad de Alcalá and Manuel Castro, UNED

Session T2G: Panel: Colleges of Engineering and Education: Partnering for Effective Community Outreach

Chair: Douglas Gorham, Institute of Electrical and Electronic

Time and place: Thursday, 10:00 am - 11:45 am

Standley I

COLLEGES OF ENGINEERING AND EDUCATION: PARTNERING FOR EFFECTIVE COMMUNITY OUTREACH .... 67
Douglas Gorham, Institute of Electrical and Electronics Engineers, Pam Cantrell, University of Nevada, John Kleppe, University of Nevada, Carly Hanson, Prince Swope Middle School, Gary Morrison, Mark Twain Elementary School, Wayne Johnson, Executive Director, University Relations Worldwide and Teri Reed Rhoads, University of Oklahoma

Session T2H: Special Session: Geek Party Tricks: Learning Science And Engineering Through Hands-On Activities

Chair: Amy Smith, Massachesettes Institute of Technology

Time and place: Thursday, 10:00 am - 11:45 am

Standley II

GEEK PARTY TRICKS: LEARNING SCIENCE AND ENGINEERING THROUGH HANDS-ON ACTIVITIES .......... 67
Amy Smith, Massachesettes Institute of Technology and Eric Muller, San Francisco Exploratorium

Session T3A: Approaches Outside the Classroom

Chair: David DiBiasio, Worcester Polytechnic Institute

Time and place: Thursday, 2:00 pm - 3:45 pm

Cotton Creek I

ACTIVE AND PASSIVE LEARNING CONNECTIONS TO SLEEP MANAGEMENT ................................. 67
James M. Gregory, Texas Tech University, Xuepeng Xie, Texas Tech University and Susan A. Mengel, Texas Tech University

GIVING CREDIT ENTICES MORE STUDENTS TO CHECK THEIR WORK, BUT... ............................... 68
David W. Petr, University of Kansas

DEVELOPING RESEARCH USING REFLECTIVE DIARIES ......................................................... 68
Jo Hamilton-Jones, Assistant Director and Torben Svané, Associate Professor

USING MASTERY-BASED GRADING TO FACILITATE LEARNING ............................................. 68
Robert L. Armacost, University of Central Florida and Julia Pet-Armacost, University of Central Florida

PERSONALIZED EXAMINATIONS IN LARGE ON-CAMPUS CLASSES ........................................... 68
Guy Albertelli, Michigan State University, Gerd Kortemeyer, Michigan State University, Alexander Sakharuk, Michigan State University and Edwin Kashy, Michigan State University
Session T3B: Assessment Tools
Chair: Edmund Tsang, Western Michigan University
Time and place: Thursday, 2:00 pm - 3:45 pm  Cotton Creek II

WORK IN PROGRESS - USING CO-OP REVIEWS AS AN ASSESSMENT TOOL ........................................... 68
Zhongming (Wilson) Liang, Purdue University Fort Wayne

DEVELOPING TECHNIQUES FOR MEASURING AND ENHANCING STUDENTS' COGNITIVE AND
METACOGNITIVE SKILLS ................................................................. 69
Wayne J. Staats, College of Charleston, David Dean, Teachers College, Columbia University, Don Miles, College of Charleston, Toni Blum, Stetson University and Ssu-yu Lu, College of Charleston

EXPERIENCES WITH THE METACOGNITIVE SKILLS INVENTORY ........................................... 69
Don Miles, College of Charleston, Toni Blum, Stetson University, Wayne J. Staats, College of Charleston and David Dean, Teachers College, Columbia University

DEFINING, TEACHING AND ASSESSING LIFELONG LEARNING SKILLS ........................................... 69
Nikos J. Mourtos, San Jose State University

USING CONCEPT MAPS FOR EVALUATING PROGRAM OBJECTIVES ........................................... 69
Jessica Gerchak, University of Pittsburgh, Mary Besterfield-Sacre, University of Pittsburgh, Larry J. Shuman, University of Pittsburgh and Harvey Wolfe, University of Pittsburgh

WORK IN PROGRESS - PRELIMINARY ASSESSMENT OF EXPERIMENT SOPHOMORE EE COURSES ............ 70
James G. Harris, Cal Poly and Kena Burke, Assessment Center

Session T3C: Teaching the Computer Science Core I
Chair: Derek Morris, Rutgers University
Time and place: Thursday, 2:00 pm - 3:45 pm  Meadowbrook I

FROM THEORY TO PRACTICE: IMPLEMENTING THE CC2001'S INTRODUCTORY PROGRAMMING SEQUENCE ........................................... 70
Jeff Matocha, Xavier University of LA, Andrea Edwards, Xavier University of LA, Marguerite S. Giguette, Xavier University of LA and R. Raymond Lang, Xavier University of LA

A TUTOR FOR COUNTER-CONTROLLED LOOP CONCEPTS AND ITS EVALUATION .................................... 70
Garrett Dancik, Ramapo College of New Jersey and Amruth Kumar, Ramapo College of New Jersey

DO CLASS COMMENTS AID JAVA PROGRAM UNDERSTANDING? ........................................... 70
Eriko Nurvitadhi, Oregon State University, Wing Wah Leung, Oregon State University and Curtis Cook, Oregon State University

CLOSING THE CS I - CS II GAP: A BREADTH-SECOND APPROACH ........................................... 71
Pearl Brazier, University of Texas - Pan American, Laura Grabowski, University of Texas - Pan American and Gustavo Dietrich, University of Texas - Pan American

WORK IN PROGRESS - AN INVERTED CURRICULUM FOR CS I ........................................... 71
Michael E. Caspersen, University of Aarhus

WORK IN PROGRESS - NEW MOTIVATIONS ARE REQUIRED FOR FRESHMAN INTRODUCTORY
PROGRAMMING ................................................................. 71
Maria Feldgen, University of Buenos Aires and Osvaldo Clua, University of Buenos Aires

Session T3D: Concept Inventories
Chair: Paul MacNeil, Mercer University
Time and place: Thursday, 2:00 pm - 3:45 pm  Meadowbrook II

THE STATISTICS CONCEPT INVENTORY: A PILOT STUDY ........................................... 71
Andrea Stone, University of Oklahoma, Kirk Allen, University of Oklahoma, Teri Reed Rhoads, University of Oklahoma, Teri J. Murphy, University of Oklahoma, Randa L. Shehab, University of Oklahoma and Chaitanya Saha, University of Oklahoma

USING A MATERIALS CONCEPT INVENTORY TO ASSESS CONCEPTUAL GAIN IN INTRODUCTORY
MATERIALS ENGINEERING COURSES ........................................... 72
Stephen Krause, Arizona State University, J. Chris Decker, Arizona State University and Richard Griffin, Texas A&M University

A CONCEPT INVENTORY FOR HEAT TRANSFER ........................................... 72
Anthony Jacobi, University of Illinois, Jay Martin, University of Wisconsin, John Mitchell, University of Wisconsin and Ty Newell, University of Illinois
COMPARISON BETWEEN PERFORMANCE ON A CONCEPT INVENTORY AND SOLVING OF MULTIFACETED PROBLEMS
Paul S. Steif, Carnegie Mellon University

DEVELOPMENT OF A CONCEPT INVENTORY FOR FLUID MECHANICS
Jay Martin, University of Wisconsin-Madison, John Mitchell, University of Wisconsin-Madison and Ty Newell, University of Illinois, Champaign-Urbana

DEVELOPMENT OF A CONCEPT INVENTORY FOR STRENGTH OF MATERIALS
Jim Richardson, University of Alabama, Paul Steif, Carnegie Mellon University, Jim Morgan, Texas A&M University and John Dantzler, University of Alabama

Session T3E: Remote and On-Line Laboratories
Chair: Jerry Hamann, University of Wyoming
Time and place: Thursday, 2:00 pm - 3:45 pm Waverly

REMOTE LABORATORIES VERSUS VIRTUAL AND REAL LABORATORIES
Zorica Nedic, University of South Australia, Jan Machotka, University of South Australia and Andrew Nafalski, University of South Australia

WORK IN PROGRESS - HANDS-ON REMOTE LABORATORY FOR FRESHMAN ENGINEERING EDUCATION
Gregory Tait, Virginia Commonwealth University and Nathan Chao, CUNY Queensborough Community College

A NOVEL APPROACH TO REMOTE LABORATORIES
Dervis Z. Deniz, Eastern Mediterranean University, Atilla Bulancak, Eastern Mediterranean University and Gökhan Özcan, Eastern Mediterranean University

ON-LINE LABORATORY FOR COMMUNICATION SYSTEMS USING J-DSP
Youngwook Ko, Arizona State University, Tolga M. Duman, Arizona State University and Andreas Spanias, Arizona State University

ON-LINE LABORATORIES FOR IMAGE AND TWO-DIMENSIONAL SIGNAL PROCESSING
Muhammad Yasin, Arizona State University, Lina J. Karam, Arizona State University and Andreas Spanias, Arizona State University

WEB-BASED SIMULATIONS AND INTELLIGENT TUTORING SYSTEM FOR PROGRAMMABLE LOGIC CONTROLLER
Sheng-Jen (Tony) Hsieh, Texas A&M University, Patricia Yee Hsieh, Texas A&M University System Administrative and General Offices and Dongmin Zhang, Texas A&M University

Session T3F: Web-based Instruction 1
Chair: Kent White, Nicholls State University
Time and place: Thursday, 2:00 pm - 3:45 pm Windsor

USING SYNCHRONOUS AND ASYNCHRONOUS ONLINE LEARNING IN COMPUTER SCIENCE COURSES
Judith Gal-Ezer, The Open University of Israel and Dvir Lanzberg, The Open University of Israel

WORK IN PROGRESS - WEB-BASED RESOURCES FOR A COURSE IN NUMERICAL METHODS
Autar K Kaw, University of South Florida, Michael Keteltas, University of South Florida, Jai Paul, University of South Florida, James Eison, University of South Florida and Glen Besterfield, University of South Florida

A WEB-BASED MULTI-MEDIA VIRTUAL EXPERIMENT
Sushil Chaturvedi, Old Dominion University, Osman Akan, Old Dominion University, Sebastian Bawah, Old Dominion University, Tarek Abdel-Salam, Old Dominion University and Manjunath Venkataramana, Old Dominion University

ACTIVE LEARNING WITH WEB TECHNOLOGY - JUST IN TIME!
Eileen M. Cashman, Humboldt State University and Elizabith A. Eschenbach, Humboldt State University

PREDICTORS OF SUCCESS: A LONGITUDINAL STUDY OF THREADED DISCUSSION FORUMS
Maxine S. Cohen, Nova Southeastern University and Timothy J. Ellis, Nova Southeastern University

DEVELOPING DYNAMIC EDUCATIONAL MATERIAL WITH INTEGRATED MATHEMATICAL NOTATION FOR WEB-BASED E-LEARNING SYSTEM
Iztok Humar, Faculty of Electrical Engineering, Matevž Pustišek, Faculty of Electrical Engineering and Janez Bešter, Faculty of Electrical Engineering
Session T3G: Open Session

Time and place: Thursday, 2:00 pm - 3:45 pm Standley I

Session T3H: Special Session: Assessment: When is enough, enough?

Chair: Dan Budny, University of Pittsburgh

Time and place: Thursday, 2:00 pm - 3:45 pm Standley II

**ASSESSMENT: WHEN IS ENOUGH, ENOUGH?** .......................................................... 75

Dan Budny, University of Pittsburgh, Mohan Krishnan, University of Detroit Mercy, Shuvra Das, University of Detroit Mercy, Mark Paulik, University of Detroit Mercy, Ronald R. DeLyser, University of Denver, Hamid Khan, Our Lady of the Lake University, Donald Elger, University of Idaho, Charles F. Yokomoto, Purdue University at Indianapolis, James Rowland, The University of Kansas, Mitchell Litt, University of Pennsylvania and Donald Carpenter, Lawrence Tech

Session T4A: Approaches inside the Classroom

Chair: Larry Richards, University of Virginia

Time and place: Thursday, 4:15 pm - 6:00 pm Cotton Creek I

**WORK IN PROGRESS - USING PSYCHOTHERAPY TECHNIQUES TO REVEAL MISCONCEPTIONS AND IMPROVE LEARNING** .......................................................... 76

Paul Santi, Colorado School of Mines and Michele M. Santi, San Francisco State University

**APPLYING AND DEVELOPING PATTERNS IN TEACHING** ........................................ 76

Jens Bennedsen, Academic Researcher and Ole Eriksen, Academic Researcher

**THE DEVELOPMENT OF MANUFACTURING CASE STUDIES** ..................................... 76

William L. White, Lawrence Technological University, Diane M. Schuch-Miller, Greenfield Coalition and Marie D. Lee, Wayne State University

**WORK IN PROGRESS - CHANGING EDUCATIONAL PRACTICES UNCOVERING THE REAL ISSUES** .......................................................... 77

Donald Elger, University of Idaho, Barbara Williams, University of Idaho, Ralph Budwig, University of Idaho, Karen DenBraven, University of Idaho, Steven Beyerlein, University of Idaho, Michael Dixon, University of Idaho, E. Clark Lemmon, University of Idaho, Fritz Fiedler, University of Idaho, Dan Cordon, University of Idaho, Robert Stephens, University of Idaho, Terry Armstrong, University of Idaho and Cori Flowers, University of Idaho

**NEW PEDAGOGICAL APPROACHES IN ENGINEERING MECHANICS YIELD INCREASED STUDENT UNDERSTANDING, CONFIDENCE, AND COMMITMENT** .......................................................... 77

Glenn W. Ellis, Smith College, Gail E. Scordilis, Smith College and Carla M. Cooke, Smith College

Session T4B: Assessment in Practice

Chair: Ronald R. DeLyser, University of Denver

Time and place: Thursday, 4:15 pm - 6:00 pm Cotton Creek II

**WORK IN PROGRESS - EXPANDING OUTCOMES ASSESSMENT USING INPUT FROM STUDENTS, ACCREDITATION COMMISSIONS, AND INDUSTRY** .......................................................... 77

Paul Stephanchick, DeVry University Kansas City

**COMPLETING THE CYCLE: MEANINGFUL COURSE EVALUATIONS** ................................ 77

Timothy J. Ellis, Nova Southeastern University

**WORK IN PROGRESS - THE FACULTY COURSE ASSESSMENT REPORT** .......................................................... 78

John K. Estell, Ohio Northern University

**ELECTRICAL ENGINEERING 215 - A CASE STUDY IN ASSESSMENT** .......................................................... 78

Harold D. Gilbert, USAFA

**ASSESSING DESIGN BY DESIGN: PROGRESS REPORT 1** .......................................................... 78

Judith Sims-Knight, UMASS Dartmouth, Richard Upchurch, UMASS Dartmouth, Nixon Pendergrass, UMASS Dartmouth, Tesfay Meressi, UMASS Dartmouth and Paul Fortier, UMASS Dartmouth

**WORK IN PROGRESS - A SYSTEMATIC WEB AND LITERATURE SEARCH FOR INSTRUCTIONAL AND ASSESSMENT MATERIALS ADDRESSING EC 2000 PROGRAM OUTCOMES** .......................................................... 78

Susan Haag, Arizona State University, Rita Caso, Texas A&M University, Emily Fowler, University of Massachusetts Dartmouth, Russ Pimmel, University of Alabama and Pete Morley, University of Alabama

Session T4C: Teaching the Computer Science Core 2

Chair: Pearl Brazier, University of Texas-Pan American
Time and place: Thursday, 4:15 pm - 6:00 pm

Meadowbrook I

A DRAWING PROGRAM FOR TEACHING COMPUTER SCIENCE II STUDENTS .............................. 79
Kent White, Nicholls State University

A THREE SEMESTER INTRODUCTORY COMPUTER SCIENCE SEQUENCE .............................. 79
Kent White, Nicholls State University and Ray Giguet, Nicholls State University

EFFECTS OF CURRICULUM ADJUSTMENTS ON FIRST-YEAR PROGRAMMING COURSES: STUDENTS PERFORMANCE AND ACHIEVEMENT ................................................................. 79
Isabel Huette Silva, University of Aveiro, Osvaldo Pacheco, University of Aveiro and José Tavares, University of Aveiro

ENHANCING LEARNING SUCCESS IN THE INTRODUCTORY PROGRAMMING COURSE .................. 79
Ardian Greca, Yamacraw Assistant Professor, Vladan Jovanovic, Professor and James K. Harris, Associate Professor

USING JEROO TO INTRODUCE OBJECT-ORIENTED PROGRAMMING ................................... 79
Brian Dorn, Iowa State University and Dean Sanders, Northwest Missouri State University

WORK IN PROGRESS - A CONCEPTUAL PROBLEM-BASED LEARNING ENVIRONMENT FOR TEACHING INTRODUCTORY PROGRAMMING ......................................................... 80
Eman El-Sheikh, University of West Florida

Session T4D: Gender in K-12 Education

Chair: Carla Egelhoff, United States Coast Guard Academy

Time and place: Thursday, 4:15 pm - 6:00 pm

Meadowbrook II

EVALUATING THE BROADER IMPACT OF THE WISE INVESTMENTS SUMMER INSTITUTE FOR K-12 EDUCATORS ................................................................................................................ 80
Arlene Inman, Inman Consulting Group, Mary R. Anderson-Rowland, Arizona State University and Donna Zerby, Arizona State University

GIRLS EMBRACE TECHNOLOGY: A SUMMER INTERNSHIP FOR HIGH SCHOOL GIRLS ............... 80
Jacquelyn F. Sullivan, University of Colorado at Boulder, Derek Reamon, University of Colorado at Boulder and Beverly Louie, University of Colorado at Boulder

SINGLE GENDER PROGRAMS: DO THEY MAKE A DIFFERENCE? ................................................. 80
Nicole B. Koppel, Montclair State University, Rosa M. Cano, N. J. Institute of Technology, Suzanne B. Heyman, N. J. Institute of Technology and Howard S. Kimmel, N. J. Institute of Technology

GENDER DIFFERENCES IN SKILLS DEVELOPMENT IN HANDS-ON LEARNING ENVIRONMENTS ................................................................. 81
Daniel W. Knight, The University of Colorado at Boulder, Lawrence E. Carlson, University of Colorado at Boulder and Jacquelyn F. Sullivan, The University of Colorado at Boulder

A.W.E. (ASSESSING WOMEN IN ENGINEERING) DESIGNING TOOLS FOR SUCCESS USING COLLABORATION 81
Rose M. Marra, University of Missouri and Barbara Bogue, Penn State University

WORK IN PROGRESS - THE EFFECTS OF CLASSROOM GENDER DYNAMICS ON ELEMENTARY LEVEL ENGINEERING EDUCATION ............................................................. 81
Brian Gravel, Tufts University, Erik Rushton, Tufts University, Carol Kelley, Center Elementary School and Sima Maitland, Center Elementary School

Session T4E: Interactive Learning Tools for EE Topics

Chair: Marion Hagler, Mississippi State University

Time and place: Thursday, 4:15 pm - 6:00 pm

Waverly

INTRODUCTION TO LABVIEW TWO-PART EXERCISE ................................................................. 81
Sami D. Alsaialy, University of San Diego, Dalia M. Tawy, University of San Diego and Susan M. Lord, University of San Diego

FOUR-SCREEN REPRESENTATION OF ELECTRONIC SYSTEMS .............................................. 82
Iouri Belski, Royal Melbourne Institute of Technology and Campbell Gray, Royal Melbourne Institute of Technology

J-DSP-C, A CONTROL SYSTEMS SIMULATION ENVIRONMENT: LABS AND ASSESSMENT .......... 82
Thrassos Thrasyvoulou, Arizona State University, Kostas Tsakalis, Arizona State University and Andreas Spanias, Arizona State University

ON-LINE SIMULATION MODULES FOR TEACHING SPEECH AND AUDIO COMPRESSION TECHNIQUES ................................................................. 82
Venkatraman Atti, Student and Andreas Spanias, student
INTERACTIVE LEARNING TOOLS FOR ENHANCING THE EDUCATION IN CONTROL SYSTEMS .............................. 82
Valeri Kroumov, Associate Professor, Keishi Shibayama, Graduate student and Akira Inoue, Professor

WORK IN PROGRESS - A 2-D INDOOR RADIO PROPAGATION MODELING BY USING MATLAB FOR
CLASSROOM INSTRUCTION .............................................................. 82
Radian G. Belu, Wayne State University, Cosmin Oancea, The University of Westrn Ontarion, Alexandru Belu, The University of Westrn Ontarion and Lucian Cioca, The University "Lucian Blaga" of Sibiu, Romania

Session T4F: Web-based Instruction 2
Chair: Teresa Larkin, American University
Time and place: Thursday, 4:15 pm - 6:00 pm  Windsor

WORK IN PROGRESS - USE OF VISUAL TOOLS IN DISTANCE TEACHING OF COMPUTATIONAL MODELS .......... 83
Judith Gal-Ezer, Open University of Israel and Mark Trakhtenbrot, Open University of Israel, and
Holon Academic Institute of Technology

WORK IN PROGRESS: LEARNING AND COST-EFFECTIVENESS OF A WEB-ENHANCED LINEAR
CIRCUITS COURSE ........................................................................ 83
Hans H. Kuehl, University of Southern California, Edward J. Kazlauskas, University of Southern
California and Lawrence O. Picus, University of Southern California

SESSION T4G: Panel: Progress on Concept Inventory Assessment Tools
Chair: D. L. Evans, Arizona State University
Time and place: Thursday, 4:15 pm - 6:00 pm  Standley I

PROGRESS ON CONCEPT INVENTORY ASSESSMENT TOOLS ............................................................... 84
D. L. Evans, Arizona State University, Gary L. Gray, Penn State University, Stephen Krause, Arizona State University, Jay Martin, University of Wisconsin, Madison, Clark Midkiff, University of Alabama, Branisla M. Notaros, Univ. of Mass, Dartmouth, Michael Pavelich, Colorado School of Mines, David Rancour, Univ of Mass., Dartmouth, Teri Reed-Rhoads, University of Oklahoma, Paul Steif, Carnegie Mellon University, Ruth Streeveler, Colorado School of Mines and Kathleen Wage, George Mason University

Session T4H: Special Session: Looking for convergence: Laboratory learning and the problem-based classroom
Chair: Wendy C. Newsstetter, Georgia Institute of Technology
Time and place: Thursday, 4:15 pm - 6:00 pm  Standley II

LOOKING FOR CONVERGENCE: LABORATORY LEARNING AND CLASSROOM LEARNING ......................... 84
Wendy C. Newsstetter, Georgia Tech and Jennifer Turns, University of Washington

Session F1A: Courses for K-12 teachers
Chair: Hamid Khan, Our Lady of the Lake University
Time and place: Friday, 8:30 am - 10:00 am  Cotton Creek I

DESIGNING A GRADUATE EDUCATION COURSE FOR DESIGN, ENGINEERING, AND
TECHNOLOGICAL CONCEPTS FOR K-12 TEACHERS ......................................................... 87
Chell Roberts, Arizona State University, Dale Baker, Arizona State University, Stephen Krause, Arizona State University, Antonio Garcia, Arizona State University, Sharon Robinson Kurpius, Arizona State University, James A. Middleton, Arizona State University, D. L. Evans, Arizona State University, Mary R. Anderson-Rowland, Arizona State University, Debra Banks, Arizona State University,
Session F1D: Gender in Undergraduate Education

Chair: Maxine Cohen, Nova Southeastern University

Time and place: Friday, 8:30 am - 10:00 am Meadowbrook II

WORK IN PROGRESS - FIT (FACULTY IN TRAINING): CULTIVATING WOMEN UNDERGRADUATES FOR PROFESSORIAL CAREERS ................................................................. 90
Idalia Ramos, University of Puerto Rico at Humacao, Alexandra Valdés-Wochinger, University of Puerto Rico at Humacao and María Vega, University of Puerto Rico at Humacao

EMPOWERING FEMALE STUDENTS: SWE VS DISCIPLINARY ORGANIZATION PARTICIPATION .......................... 90
Harriet Hartman, Rowan University and Moshe Hartman, Ben-Gurion University

BREAKING THE SILICON CEILING: WOMEN IN ENGINEERING FRESHMEN SEMINAR ................................. 91
Aura Ganz, University of Massachusetts, Sussannah Howe, University of Massachusetts, Vanessa Rivera, University of Massachusetts and Yuechun Chu, University of Massachusetts

INCREASING WOMEN'S IMPACT ON TECHNOLOGY: THE UTEP-VDC SITE ................................................ 91
Patricia A. Nava, University of Texas at El Paso, Virginia Granda, University of Texas at El Paso and Benjamin Flores, University of Texas at El Paso

INNOVATIVE EDUCATIONAL OPPORTUNITIES FOR WOMEN IN STEM: RESEARCH INTERNSHIPS IN SCIENCE AND ENGINEERING (RISE) ........................................... 91
Janet A. Schmidt, Clark School of Engineering, University of Maryland, Paige E. Smith, Women In Engineering, Kristen E. Vogt, Clark School of Engineering, University of Maryland and Linda C. Schmidt, Clark School of Engineering, University of Maryland

Session F1E: Soft Skills for Engineering Graduates

Chair: Dan Moore, Rose-Hulman Institute of Technology

Time and place: Friday, 8:30 am - 10:00 am Waverly

AN ABET-BASED SEMINAR COURSE ................................................................................................................. 91
Rachid Mansur, University of West Florida

THE INFORMED ENGINEER ............................................................................................................................. 91
Maliaca Oxnam, University of Arizona

WORK IN PROGRESS - DEVELOPING A SENSE OF PURPOSE IN GRADUATING ENGINEERS ..................... 92
Kevin Bolding, Seattle Pacific University

ENHANCING COMMUNICATION AND PROFESSIONAL PRACTICE SKILLS IN AN INTRODUCTORY ENGINEERING COURSE ................................................................. 92
Julia Pet-Armacost, University of Central Florida and Robert L. Armacost, University of Central Florida

REAL-WORLD ENGINEERING: A COURSE FOR MASTERS STUDENTS HEADED FOR INDUSTRY ............ 92
Sally A. McKee, Cornell University and Diane M. Kubarek, Cornell University

Session F1F: Design Competitions

Chair: Alan Clements, University of Teesside

Time and place: Friday, 8:30 am - 10:00 am Windsor

CONSTRUCTING A COMPUTING COMPETITION TO TEACH TEAMWORK ................................................ 92
Alan Clements, University of Teesside

WORK IN PROGRESS - PROGRAMMING CONTESTS IN ACADEMIC ENVIRONMENTS ............................. 93
Cheryl L. Morris, IBM Canada Ltd. and Gabriel M. Silberman, IBM TJ Watson Research Center

ROBOTICS CONTESTS AND COMPUTER SCIENCE AND ENGINEERING EDUCATION ........................ 93
Chan Jin Chung, Lawrence Technological University and Lisa Anneberg, Lawrence Technological University

COMPUTER SYSTEMS DESIGN COMPETITION AT BYU .................................................................................. 93
Michael J Wirthlin, Brigham Young University

Session F1G: Panel: Authoring a Professional Book

Chair: James Conrad, University of North Carolina at Charlotte

Time and place: Friday, 8:30 am - 10:00 am Standley I

PANEL: AUTHORIZING A PROFESSIONAL BOOK ...................................................................................... 93
Session F1H: Special Session: Addressing EC2000, Item g: Ability to Communicate Effectively
Chair: Patricia A. Carlson, Rose-Hulman Institute of Technology
Time and place: Friday, 8:30 am - 10:00 am

CPR: A TOOL FOR ADDRESSING EC2000, ITEM G -- ABILITY TO COMMUNICATE EFFECTIVELY ............... 93
Patricia A. Carlson, Rose-Hulman Institute of Technology and Frederick C. Berry, Rose-Hulman Institute of Technology

Session F2A: Pre-College Concepts
Chair: Abraham Teng, Utah Valley State College
Time and place: Friday, 11:00 am - 12:30 pm

COOL (COMPUTER OUTREACH OPPORTUNITIES FOR LEARNING) DEVELOPMENT AND ASSESSMENT .... 94
James S. Collofello, Arizona State University, Joseph E. Urban, Arizona State University, Mary R. Anderson-Rowland, Arizona State University, Faye Navabi, Arizona State University, Debra L. Banks, Arizona State University and Doris Roman, Arizona State University

HIGH SCHOOL STUDENTS ATTITUDES TO AND KNOWLEDGE ABOUT ENGINEERING .................. 94

AP MATHEMATICS AND SCIENCE COURSES AS A GATEWAY TO CAREERS IN ENGINEERING .......... 94
Mike Robinson, University of Nevada, M. Sami Fadali, University of Nevada, M. Malisa, University of Nevada, W. Johnson, University of Nevada and Ted Batchman, University of Nevada

INTRODUCING ENGINEERING IN MIDDLE SCHOOLS ..................................................... 94
Laura L. Kosbar, IBM T.J. Watson Research Center

WORK IN PROGRESS: OVER-ARCHING CONCEPTS IN K-12 SCIENCE EDUCATION: CONNECTING THE DOTS 95
Joseph Kelly, Eagle High School and John Gardner, Boise State University

Session F2B: EE Topics 2
Chair: Hossein Mousavinezhad, Western Michigan University
Time and place: Friday, 11:00 am - 12:30 pm

WORK IN PROGRESS - INTEGRATION OF DATA ACQUISITION HARDWARE INTO AN UNDERGRADUATE DIGITAL SIGNAL PROCESSING COURSE VIA THE CAPSTONE SENIOR DESIGN PROJECT ............... 95
Elizabeth A. Thompson, Indiana University/Purdue University Fort Wayne, Jonathon Acierto, Indiana University/Purdue University Fort Wayne and Adrian Chavis, Indiana University/Purdue University Fort Wayne

WORK IN PROGRESS: MULTI-MEDIA EDUCATIONAL MATERIALS FOR MICROELECTRONIC DEVICE COURSES ................................................................. 95
Lili He, San Jose State University

WORK IN PROGRESS - ELECTRICAL ENGINEERING SERVICE COURSE IMPROVEMENTS ............. 95
Cliff Grigg, Rose-Hulman Institute of Technology and Edward Wheeler, Rose-Hulman Institute of Technology

LABORATORY DESIGN FOR INTRODUCTORY COURSE OF MICRO-PROCESSORS .................. 95
Shouling He, Penn State Erie

ADAPTING THE LEARNING FACTORY MODEL FOR IMPLEMENTATION IN A LABORATORY .......... 96
Mukasa E. Ssemakula, Wayne State University and Gene Y. Liao, Wayne State University

Session F2C: Computer Science Education 1
Chair: Ingrid Russell, University of Hartford
Time and place: Friday, 11:00 am - 12:30 pm

RESULTS FROM USING AN ENVIRONMENT FOR INTERPRETER-BASED PROJECTS FOR THE PROGRAMMING LANGUAGES COURSE .................................................. 96
Barbara M. Moskal, Colorado School of Mines, L. A. Smith King, College of the Holy Cross and John Barr, Ithaca College

ON MAKING RELATIONAL DIVISION COMPREHENSIBLE ................................................. 96
Lester I. McCann, University of Wisconsin - Parkside

WORK IN PROGRESS - USING THE NSF DIGITAL LIBRARY TO ENHANCE YOUR TEACHING .......... 96
John Impagliazzo, Hofstra University, John A.N. Lee, Virginia Tech and Manuel Pérez-Quiñones, Virginia Tech
A SIMULATOR SUPPORTING LECTURES ON OPERATING SYSTEMS ............................................................... 96
Luiz Paulo Maia, Federal University of Rio de Janeiro - UFRJ and Ageu C. Pacheco Jr., Federal University of Rio de Janeiro - UFRJ

NON-DETERMINISM IN CS HIGH-SCHOOL CURRICULA ................................................................. 97
Michal Armoni, The Open University of Israel and Judith Gal-Ezer, The Open University of Israel

Session F2D: Recruitment and Diversity 1

Chair: Larry Whitman, Wichita State University

Time and place: Friday, 11:00 am - 12:30 pm  Meadowbrook II

ENGINEERING AND ELEMENTARY SCHOOL PARTNERSHIPS (OR DEAN KAMEN S CHALLENGE REVISITED) . 97
Bogdan Adamczyk, Grand Valley State University and Shirley Fleischmann, Grand Valley State University

USING SUMMER CAMPS TO MOTIVATE RURAL STUDENTS IN SCIENCE AND ENGINEERING . . . . . . . . . . 97
Denise Martinez, Tarleton State University and Michael Hibbs, Tarleton State University

BEST PRACTICES IN RECRUITING AND PERSISTENCE OF UNDERREPRESENTED MINORITIES IN ENGINEERING: A 2002 SNAPSHOT ................................................................. 97
J.A. Youngman, United States Coast Guard Academy and C.J. Egelhoff, United States Coast Guard Academy

CONNECTS COMMUNITIES: MAKING CONNECTIONS FOR SUCCESS .................................................. 98
Marsha Lee, Texas A&M University, César Malavé, Texas A&M University and Jan Rinehart, Texas A&M University

ENGINEERING INSIGHTS: DEVELOPING STEM EDUCATION FOR STUDENTS WITH DISABILITIES LEADS TO K-16 PARTNERSHIPS ................................................................. 98
William C. McCarthy, New Mexico State University and Joseph E. Misquez, New Mexico State University

Session F2E: Laboratory Innovations

Chair: Al Rosa, University of Denver

Time and place: Friday, 11:00 am - 12:30 pm  Waverly

DEVELOPMENT OF A MULTI-USE CONSTRUCTION ENGINEERING AND MANAGEMENT CLASSROOM/LABORATORY ................................................................. 98
Charles McIntyre, North Dakota State University and Gary Smith, North Dakota State University

A CLOSE-RANGE PHOTOGRAMMETRY LABORATORY ACTIVITY FOR MECHANICAL ENGINEERING UNDERGRADUATES ................................................................. 98
Jack Leifer, University of Kentucky

WORK IN PROGRESS - LABVIEW IN ENGINEERING LABORATORY COURSES ........................................ 99
Julie Yi-Zun Wang, Potomac State College of West Virginia University

INTEGRATED DESIGN LABORATORY ................................................................. 99
Robert Kubichek, University of Wyoming, John Pierre, University of Wyoming, Frank Tuffner, University of Wyoming, Jerry Hamann, University of Wyoming and John Steadman, University of Wyoming

AN INEXPENSIVE METHOD TO TEACH HANDS-ON DIGITAL COMMUNICATIONS .................................. 99
Cameron H. G. Wright, University of Wyoming, Thad B. Welch, U.S. Naval Acadmy and Michael G. Morrow, University of Wisconsin at Madison

Session F2F: Computer Engineering Education

Chair: James Conrad, University of North Carolina at Charlotte

Time and place: Friday, 11:00 am - 12:30 pm  Windsor

BRIDGING THE GAP BETWEEN FUTURE SOFTWARE AND HARDWARE ENGINEERS: A CASE STUDY USING THE NIOS SOFTCORE PROCESSOR ................................................................. 99
Jaakko Kairus, Helsinki University of Technology, Juha Forsten, Helsinki University of Technology, Matti Tommiska, Helsinki University of Technology and Jorma Skyttä, Helsinki University of Technology

THE GRADUATION THESIS IN THE COMPUTER ENGINEERING PROGRAM AT UNICENP .......................... 100
Edson Pedro Ferlin, Centro Universitário Positivo - UnicenP, Valfredo Pilla Junior, Centro Universitário Positivo - UnicenP and José Carlos da Cunha, Centro Universitário Positivo - UnicenP
COMPUTER ARCHITECTURE AND ORGANIZATION IN THE MODEL COMPUTER ENGINEERING CURRICULUM ................................................................. 100
Victor P. Nelson, Auburn University, Mitchell D. Theys, University of Illinois at Chicago and Alan Clements, University of Teesside

INTEGRATING COMPUTER ENGINEERING EDUCATION WITH A PLATFORM FOR LEARNING .................. 100
Don Heer, Oregon State University, Roger Traylor, Oregon State University, Tom Thompson, Oregon State University and Terri Feiz, Oregon State University

A PERFORMANCE MODELING AND DESIGN ENVIRONMENT FOR SENIOR COMPUTER ENGINEERING UNDERGRADUATES ........................................ 100
Robert H Klenke, Virginia Commonwealth University, Jason M Blevins, Virginia Commonwealth University, James H Aylor, University of Virginia and Jason J Hein, University of Virginia

Session F2G: Panel: Communities of Practice in Engineering Education
Chair: Diane T. Rover, Iowa State University
Time and place: Friday, 11:00 am - 12:30 pm Standley I

COMMUNITIES OF PRACTICE IN ENGINEERING EDUCATION ..................................................... 101
Diane T. Rover, Iowa State University, Bruce Kramer, National Science Foundation, Ruth Streeveler, Colorado School of Mines, Jeff Froyd, Foundation Coalition and Karl Smith, University of Minnesota

Session F2H: Special Session: Service Learning in Engineering and Computer Science Courses
Chair: William Oakes, Purdue University
Time and place: Friday, 11:00 am - 12:30 pm Standley II

SERVICE LEARNING IN ENGINEERING AND COMPUTER SCIENCE COURSES ............................................. 101
William Oakes, Purdue University

Session F3A: Pre-College Projects
Chair: Kathleen E. Wage, George Mason University
Time and place: Friday, 2:30 pm - 4:00 pm Cotton Creek I

STANDARDS-BASED ENGINEERING CURRICULA AS A VEHICLE FOR K-12 SCIENCE AND MATH INTEGRATION ................................................................. 101
Mafilda R. Schaefer, University of Colorado, Jacquelyn F. Sullivan, University of Colorado and Janet L. Yowell, University of Colorado

USING LEGO'S TO INTEREST HIGH SCHOOL STUDENTS AND IMPROVE K12 STEM EDUCATION ........ 101
Lawrence E. Whitman, Wichita State University and Tonya L. Witherspoon, College of Education

UNIVERSITY MENTORING FOR FIRST LEGO LEAGUE .............................................................. 101
Whitney L. Howell, University of South Florida, Edward J. McCaffrey, University of South Florida and Robin R. Murphy, University of South Florida

THE VIRGINIA MIDDLE SCHOOL ENGINEERING EDUCATION INITIATIVE: USING A SENIOR DESIGN COURSE TO DEVELOP ENGINEERING TEACHING KITS ................................. 102
Amanda Kranes, University of Virginia, Kelly L. Klanian, University of Virginia, Leyf Peirce, University of Virginia, Elizabeth Waters, University of Virginia, Kristina Gluchowski, University of Virginia, Kristopher Janezic, University of Virginia, Joshua Labrie, University of Virginia, Jennifer Cunningham, University of Virginia, Hilary Bart-Smith, University of Virginia and Larry G. Richards, University of Virginia

USING J-DSP TO INTRODUCE COMMUNICATIONS AND MULTIMEDIA TECHNOLOGIES TO HIGH SCHOOLS 102
Andreas Spanias, Arizona State University, Thrassos Thrasyvoulou, Arizona State University, Yu Song, Arizona State University and Constantinos Panayiotou, Arizona State University

Session F3B: Global Issues in Engineering Education
Chair: Cesar Malave, Texas A&M University
Time and place: Friday, 2:30 pm - 4:00 pm Cotton Creek II

PROGRAM IN ENGINEERING FOR DEVELOPING COMMUNITIES: VIEWING THE DEVELOPING WORLD AS THE CLASSROOM OF THE 21ST CENTURY ................................. 102
Bernard Amadei, University of Colorado
WORK IN PROGRESS: K12 IN XXI CENTURY: A CHALLENGE FOR THE DEVELOPING COUNTRIES
NEW SOCIETY ................................................................. 102
Melany M. Ciampi, Supportnet School of Technology, Claudio da Rocha Brito, Council of
Researches in Education and Sciences, Edvaldo Valle, Supportnet School of Technology and Janete
Molnar, Supportnet School of Technology

WORK IN PROGRESS: ENHANCING ENGINEERING EDUCATION IN IBERIAN-AMERICAN COUNTRIES .... 103
Claudio da Rocha Brito, Council of Researches in Education and Sciences and Melany M. Ciampi,
Supportnet School of Technology

IN SEARCH OF CONTEXTUAL TEACHING OF PROGRAMMING IN A TANZANIAN SECONDARY SCHOOL .... 103
Marcus Duveskog, University of Joensuu, Erkki Sutinen, University of Joensuu, Matti Tedre, Uni-
versity of Joensuu and Mikko Vesisenaho, University of Joensuu

GLOBAL NETWORK AND GLOBAL CENTRE FOR PROBLEM BASED LEARNING ..................... 103
Flemming K. Fink, Aalborg University, Stig Enemark, Aalborg University, Egon Moesby, Aalborg
University and Anette Kolmos, Aalborg University

Session F3C: Computer Science Education 2
Chair: Ann Gates, University of Texas at El Paso
Time and place: Friday, 2:30 pm - 4:00 pm Meadowbrook I

WORK IN PROGRESS: A GENERAL-PURPOSE CUSTOM-DESIGNED ASSEMBLER IN C ................. 103
Bo Hatfield, Salem State College, Mei Zhang, Cadence Design Systems, Inc. and Lan Jin, California
State University - Fresno

RJSSIM: A RECONFIGURABLE JOB SCHEDULING SIMULATOR FOR PARALLEL PROCESSING LEARNING . 104
Luís F. W. Góes, Pontifical Catholic University of Minas Gerais and Carlos A. P. S. Martins, Pontif-
ical Catholic University of Minas Gerais

INTEGRATING LINUX INTO A WINDOWS-BASED CAMPUS NETWORK: MODIFYING OPEN
SOURCE/FREE SOFTWARE IN SUPPORT OF THE COMPUTER SCIENCE CURRICULUM ............... 104
Kyle R. Blankenheim, US Military Academy and Ryan Tate, US Military Academy

TEACHING REAL-TIME CONCEPTS IN AN UNDERGRADUATE COMPUTER SCIENCE PROGRAM ........ 104
Ron Schroeder, Southern Polytechnic State University and John Rupf, Southern Polytechnic State
University

Session F3D: Recruitment and Diversity 2
Chair: Autar Kaw, University of South Florida
Time and place: Friday, 2:30 pm - 4:00 pm Meadowbrook II

A DYNAMICAL SYSTEMS MODEL FOR INVESTIGATING DIVERSITY ...................................... 104
Alisha A. Waller, Georgia State University

DIVERSITY IN K-12 INITIATIVES TO ATTRACT A DIVERSE POOL OF ENGINEERING STUDENTS .......... 105
Susan E. Powers, Clarkson University, Mary Graham, Clarkson University, Timothy Schwob,
SUNY Potsdam and Jan DeWaters, Clarkson University

CONCEPTUALISING ENGINEERING SUBJECTS FOR WIDER PARTICIPATION .......................... 105
Reuben Edwards, Lancaster University and Paul Coulton, Lancaster University

TEACHING DIVERSITY AT THE COLLEGE OF TECHNOLOGY AND AVIATION ....................... 105
Saeed Khan, Kansas State University

INITIATIVES TO INCREASE NUMBER OF ENTRANTS INTO ENGINEERING PROGRAMS: AN
AUSTRALIAN PERSPECTIVE .............................................. 105
Kevin J. McDermott, University of South Australia, Özdemir Göl, University of South Australia and
Andrew Nafalski, University of South Australia

Session F3E: Writing
Chair: David Kauffmann, University of New Mexico
Time and place: Friday, 2:30 pm - 4:00 pm Waverly

CALIBRATED PEER REVIEW AND ASSESSING LEARNING OUTCOMES .................................... 106
Patricia A. Carlson, Rose-Hulman Institute of Technology and Frederick C. Berry, Rose-Hulman
Institute of Technology
WORK IN PROGRESS: INTRODUCING UPPER-LEVEL ENGINEERING STUDENTS TO THE TECHNICAL LITERATURE IN A SPECIAL TOPICS COURSE BY WRITING REVIEW PAPERS ACCORDING TO ARCHIVAL SPECIFICATIONS

Dan Cordova, University of Idaho and Steve Beyerlein, University of Idaho

WRITTEN COMMUNICATION IN A TECHNICAL CONTEXT: MEANINGFUL WRITING ASSIGNMENTS FOR ENGINEERING TECHNOLOGY STUDENTS

Jeffrey L. Newcomer, Western Washington University, Kathleen L. Kitto, Western Washington University and Barbara Sylvester, Western Washington University

WORK IN PROGRESS: IMPROVING ENGINEERING REPORT WRITING WITH CALIBRATED PEER REVIEW

Burford Furman, San Jose State University and William Robinson, San Jose State University

OWL: A WISE WAY TO ENHANCE ENGINEERING STUDENTS WRITING SKILLS

Erik Fisher, College of Engineering and Applied Science, University of Colorado (Boulder), Michael W. Usrey, EnergyWindow, Inc. and Heather A. Beasley, University of Colorado (Boulder)

Session F3F: Web-based Instruction 3
Chair: Robert Herrick, Purdue University
Time and place: Friday, 2:30 pm - 4:00 pm Windsor

BUILDING MATHEMATICS LEARNING APPLICATIONS BY MEANS OF CONSMAH

Miguel Angel Mora, Universidad Autónoma de Madrid, Roberto Moriyón, Universidad Autónoma de Madrid and Francisco Saiz, Universidad Autónoma de Madrid

CONSTRUCTION OF A WEB-BASED VIRTUAL CLASSROOM AND ITS EFFECTIVE ANALYSIS

Qingtang Liu, Huazhong University of Science & Technology, Chengling Zhao, Central China Normal University and Zhongkai Yang, Huazhong University of Science & Technology

INCREASING INTERACTIVITY IN ELECTRICAL ENGINEERING

Don Millard, Rensselaer and Gerald Burnham, UT-Dallas

VIDEOCONFERENCE AND PRESENTATION SUPPORT FOR SYNCHRONOUS DISTANCE LEARNING

Richard Anderson, University of Washington, Jay Beavers, Microsoft Research, Tammy VanDeGrift, University of Washington and Fred Vodeon, University of Washington

USING INTERACTIVE BLACKBOARD CHATS TO PROMOTE STUDENT LEARNING IN PHYSICS

Teresa L. Larkin, American University, Sarah Irene Belson, American University and Dan Budny, University of Pittsburgh

Session F3G: Panel: Writing a Textbook
Chair: John D. Carpinelli, New Jersey Institute of Technology
Time and place: Friday, 2:30 pm - 4:00 pm Standley I

DISCUSSION PANEL: WRITING A TEXTBOOK

John D. Carpinelli, New Jersey Institute of Technology, Alan Clements, University of Teesside, John Demel, Ohio State University, Stephen Seidman, New Jersey Institute of Technology and William Zobrist, John Wiley & Sons, Inc.

Session F3H: Special Session: Olin College: It's Alive
Chair: Jonathan Stolk, Franklin W. Olin College of Engineering
Time and place: Friday, 2:30 pm - 4:00 pm Standley II

OLIN COLLEGE: IT'S ALIVE

Jonathan Stolk, Franklin W. Olin College of Engineering and Sarah Spence, Franklin W. Olin College of Engineering

Session F4A: The Art and Technology of Teaching A Miniworkshop
Chair: Bob Herrick, Purdue University
Time and place: Friday, 4:30 pm - 6:00 pm Cotton Creek I

THE ART AND TECHNOLOGY OF TEACHING A MINIWORKSHOP

Robert J. Herrick, Purdue University and J. Michael Jacob, Purdue University

Session F4B: Industry Partnerships
Chair: Barbara Karanian, Wentworth Institute of Technology
Time and place: Friday, 4:30 pm - 6:00 pm Cotton Creek II

CEINT INTERNSHIP PROGRAM

David C. Phaneis, Arizona State University
INTERNERSHIP EDUCATION AS AN INTEGRAL PART OF ENGINEERING EDUCATION: THE NASA-UMES SUMMER INTERNSHIP PROGRAM (NUSIP) EXPERIENCE
I. K. Dabipi, University of Maryland Eastern Shore and J.O. Arumala, University of Maryland Eastern Shore

THE POSITIVE INFLUENCE OF COOPERATIVE WORK EXPERIENCE ON THE CAPSTONE DESIGN EXPERIENCE OF ENGINEERING STUDENTS
Cherian P. Mathews, University of West Florida, Jason Mamaloukas, University of West Florida and Scott Parrott, University of West Florida

FOSTERING PROFESSIONAL DEVELOPMENT THROUGH INTEGRATING WORK AND FORMAL LEARNING
David Radcliffe, The University of Queensland and Allison Brown, RMIT University

Session F4C: Computer Science Education 3
Chair: Mats Daniels, University of Uppsala
Time and place: Friday, 4:30 pm - 6:00 pm Meadowbrook I

TEACHING INFORMATION SECURITY TO ENGINEERING MANAGERS
Julie J.C.H. Ryan, George Washington University

HARD LESSONS LEARNED USING HARDWARE-ORIENTED CAPSTONE PROJECTS
Scott Campbell, Miami University and Ann Sobel, Miami University

EVOLUTION AND TRENDS AMONG COMPUTER SCIENCE AND COMPUTER ENGINEERING PROFESSIONALS IN MEXICO (1971-2005)
Sergio Ellerbracke Román, Universidad del Valle de Atemajac and Elba Lomelí Mijes, Universidad de Guadalajara

WORK IN PROGRESS - TOWARDS A STANDARDISED APPROACH TO GENERIC MODULE DELIVERY AND SUPPORT IN THE SCHOOL OF COMPUTING AND ENGINEERING AND AN EXAMINATION OF THE MYRIAD IMPLICATIONS INVOLVED
Judith Hopkins, University of Huddersfield

GRAPHICAL PROGRAMMING: A VEHICLE FOR TEACHING COMPUTER PROBLEM SOLVING
Brian T. Westphal, Univ. of Nevada, Frederick C. Harris, Jr., Univ. of Nevada and M. Sami Fadali, Univ. of Nevada

Session F4D: First Year Students
Chair: Chris Taylor, Milwaukee School of Engineering
Time and place: Friday, 4:30 pm - 6:00 pm Meadowbrook II

WORK IN PROGRESS: A CURRICULUM COLLABORATION MODEL: WORKING WITH UPPER DIVISION STUDENTS TO IMPROVE A FIRST-YEAR PROGRAM
John Merrill, The Ohio State University, Blaine Lilly, The Ohio State University and Omer Masud, The Ohio State University

MORE THAN MOUSETRAPS: DATA COLLECTION, MODELING, AND TESTING - A SCALABLE AND AFFORDABLE SOLUTION FOR FRESHMEN DESIGN PROJECTS
Brett H. Hamlin, Michigan Technological University and Jim E. Hertel, Michigan Technological University

RELATIVE EFFECTIVENESS OF DIFFERENT FIRST-YEAR ENGINEERING SEMINARS
Robert Montgomery, Purdue University, Deborah Follman, Purdue University and Heidi Diefes-Dux, Purdue University

WORK IN PROGRESS - INCORPORATION OF FRESHMAN ENGINEERING PROJECTS
Laura Wesson, Louisiana Tech University

Session F4E: Robotics
Chair: Valeri Kroumov, Okayama University of Science
Time and place: Friday, 4:30 pm - 6:00 pm Waverly

ROBOTIC ASSEMBLY CELL
Robert P. Van Til, Oakland University, Sankar Sengupta, Oakland University, Ronald J. Srodawa, Oakland University and Michael A. Latcha, Oakland University
WIRELESS, WEB-CONTROLLED, BALL-COLLECTING ROBOT: AN ENGINEERING AND COMPUTER SCIENCE CLUSTER COURSE ....................................................... 112
Todd Swift, Loras College and Danial Neebel, Loras College

A COLLABORATIVE FRAMEWORK FOR LEARNING ROBOT MECHANICS: RIO ROBOTICS ILLUSTRATIVE SOFTWARE ......................................................... 112
Andrei Lobov, Tampere University of Technology, Jose L. Martinez Lastra, Tampere University of Technology and Reijo Tuokko, Tampere University of Technology

AN AUTONOMOUS MOBILE ROBOT DEVELOPMENT PLATFORM FOR TEACHING A GRADUATE LEVEL MECHATRONICS COURSE .................................. 113
Dan Hoopes, Master's Degree Candidate, BYU, Tyler Davis, Master's Degree Candidate, BYU, Kelly Norman, Master's Degree Candidate, BYU and Richard Helps, Department Chair

PRINCIPLES AND EXPERIENCES IN USING LEGOS TO TEACH BEHAVIORAL ROBOTICS .......................................................... 113
Aaron Gage, University of South Florida and Robin R. Murphy, University of South Florida

Session F4F: Web-based Instruction 4
Chair: Barbara Thomas, Southern Polytechnic State University
Time and place: Friday, 4:30 pm - 6:00 pm Windsor

NEW COURSE DEVELOPMENT IN A DISTANCED COLLABORATIVE ENVIRONMENT ................................................................. 113
Emory W. Zimmers, Jr., Lehigh University, David A. Servas, Lehigh University, Lawrence R. Butler, Butler Engineering and Gregory L. Tonkay, Lehigh University

WORK IN PROGRESS - GROW: A NEW RESOURCE FOR TEACHING AND LEARNING .......................................................... 113
Maliaca Oxnam, University of Arizona

LESSONS LEARNED TEACHING ENGINEERING ONLINE TO ARCHITECTURE AND CONSTRUCTION MANAGEMENT STUDENTS .................................................. 114
Vicki May, California Polytechnic State University and Pamalee Brady, California Polytechnic State University

FACILITATING EFFECTIVE, GEOGRAPHICALLY DISTRIBUTED ENGINEERING DESIGN TEAMS ................................. 114
Barry Davidson, Syracuse University, John Dannenhoffer III, Syracuse University, Geraldine Gay, Cornell University, Anthony Ingraffea, Cornell University, Jones Scott, Cornell University, Jae-Shin Lee, Cornell University, Michael Stefanone, Cornell University and Alan Zeznder, Cornell University

CURATOR: LEARNING OBJECT CONSTRUCTION MATRIX ............................................................. 114
Terence C. Ahern, CSU Monterey Bay, Nancy Van Cleave, Eastern Illinois University, Trey Martin, East Carolina University and Jevgenia Smorgun, CSU Monterey Bay

Session F4G: Panel: Challenges in Teaching Software Engineering Professionals Online
Chair: Gregory W. Hislop, Drexel University
Time and place: Friday, 4:30 pm - 6:00 pm Standley I

CHALLENGES IN TEACHING SOFTWARE ENGINEERING PROFESSIONALS ONLINE .......................................................... 114
Gregory W. Hislop, Drexel University, Heidi J. C. Ellis, Rensselaer at Hartford, Paul E. MacNeil, Mercer University and Cynthia D. Tanner, West Virginia University

Session F4H: Special Session: The art of getting students to practice team skills
Chair: Steve Roach, University of Texas at El Paso
Time and place: Friday, 4:30 pm - 6:00 pm Standley II

THE ART OF GETTING STUDENTS TO PRACTICE TEAM SKILLS .......................................................... 115
Steve Roach, University of Texas at El Paso, Ann Gates, University of Texas at El Paso, Jacquelyn Sullivan, University of Colorado at Boulder, Richard Upchurch, University of Massachusetts Dartmouth and Karl Smith, University of Minnesota

Session S1A: Faculty Development
Chair: David Radcliffe, The University of Queensland, Australia
Time and place: Saturday, 8:30 am - 10:15 am Cotton Creek I

A PROGRAM FOR FACULTY PEER REVIEW AT NORTH DAKOTA STATE UNIVERSITY ......................................................... 119
Charles McIntyre, North Dakota State University and Sudhir Mehta, North Dakota State University

WEBSITES FOR ENGINEERING EDUCATORS: A BENCHMARK STUDY TO IDENTIFY BEST PRACTICES .......................................................... 119
Jennifer Turns, University of Washington, Michelle Valeriano, University of Washington and Robin S. Adams, University of Washington
WORK-IN-PROGRESS: DESIGNING A SUPPORT SYSTEM FOR RESEARCH ON ENGINEERING EDUCATION
Norman L. Fortenberry, National Academy of Engineering

WORK IN PROGRESS - ENGAGING FACULTY IN ACTIVE/COOPERATIVE LEARNING
Karl A. Smith, University of Minnesota, Jim Morgan, Texas A&M University, Susan Ledlow, Arizona State University, P. K. Imbrie, Purdue University and Jeff Froyd, Texas A&M University

WORK IN PROGRESS - WAYS OF KNOWING: WAYS OF PRACTICE
Sandra Shaw Courter, University of Wisconsin - Madison, Cid Freitag, University of Wisconsin - Madison and Mary McEniry, University of Wisconsin - Madison

WORK IN PROGRESS - BEYOND INSTRUCTION: FACULTY ADVANCEMENT FROM BEGINNING TO ADVANCED LEVELS
Sharon B. Fellows, Binghamton University, Matt Laferty, Binghamton University and Richard S. Culver, Binghamton University

Session S1B: Student Centered Learning Approaches

Chair: Matt Ohland, Clemson University

Time and place: Saturday, 8:30 am - 10:15 am

Cotton Creek II

WORK IN PROGRESS - INTEGRATING SERVICE LEARNING INTO FRESHMAN ENGINEERING COURSES
William C. Oakes, Purdue University and P.K. Imbrie, Purdue University

WORK IN PROGRESS - ROBOTS, PLANTS, AND THE TEN-YEAR-OLD CONSULTANT: TEAMING K-12 AND UNDERGRADUATE STUDENTS IN COMMUNITY-BASED PROJECTS TO ENCOURAGE STEM
Leslie Crowley, University of Illinois, Jon Dolle, University of Illinois, Ann Finnegan, University of Illinois and J. Bruce Litchfield, University of Illinois

SUPPORTING LEARNING ACTIVITIES USING VIRTUAL TOOLS
Lucia M. M. Giraffa, PUCRS, Sabrina S. Marczak, PUCRS and Gláucio Almeida, PUCRS

THE MIT IDEAS COMPETITION: PROMOTING INNOVATIONS FOR PUBLIC SERVICE
Amy Smith, MIT, Amy Banzaert, MIT and Sally Susnowitz, MIT

DEVELOPING THE REFLECTION COMPONENT IN THE EPICS MODEL OF ENGINEERING SERVICE LEARNING
Lynne A. Slivovsky, Purdue University, Frank R. DeRego Jr., Purdue University, Leah H. Jamieson, Purdue University and William C Oakes, Purdue University

A PARAMETRIC EXERCISE BASED TUTORING SYSTEM
Rosa M. García Ríoja, Carlos III University of Madrid, Sergio Guitiérrez Santos, Carlos III University of Madrid, Abelardo Pardo, Carlos III University and Carlos Delgado Kloos, Carlos III University of Madrid

Session S1C: Topics in Software Engineering Education

Chair: Daniela Rosca, Monmouth University

Time and place: Saturday, 8:30 am - 10:15 am

Meadowbrook I

INCORPORATING SOFTWARE ENGINEERING PRINCIPLES INTO REAL TIME ENGINEERING COURSES
Ted Sarma, Western Michigan University, Massood Atashbar, Western Michigan University and Hossein Mousavinezhad, Western Michigan University

WORK IN PROGRESS: EXPERIENCING REAL-WORLD PROJECTS THROUGH TEAM-BASED COURSES
Joo Tan, Mansfield University, Yang Yin, Mansfield University and Saron Ketema, Mansfield University

WORK IN PROGRESS - ALTERNATIVE DOMAINS AND LEVELS OF UNDERSTANDING FOR SOFTWARE ENGINEERING ASSESSMENT
Paul E. MacNeil, Mercer University

TEACHING SOFTWARE DESIGN WITH OPEN SOURCE SOFTWARE
David Carrington, The University of Queensland and Soon-Kyeong Kim, The University of Queensland

TRANSFER OF KNOWLEDGE IN A WEB APPLICATION DESIGN AND DEVELOPMENT COURSE
Heidi J. C. Ellis, Rensselaer at Hartford

THE ROLE OF MODELING IN SOFTWARE ENGINEERING EDUCATION
Peter B. Henderson, Butler University

Session S1D: Knowing Our Students 1

Chair: Donald Carpenter, Lawrence Technological University

Teaching Software Design with Open Source Software
David Carrington, The University of Queensland and Soon-Kyeong Kim, The University of Queensland

Transfer of Knowledge in a Web Application Design and Development Course
Heidi J. C. Ellis, Rensselaer at Hartford

The Role of Modeling in Software Engineering Education
Peter B. Henderson, Butler University
Time and place: Saturday, 8:30 am - 10:15 am

**STUDENT LEARNING STYLES, WEB USE PATTERNS AND ATTITUDES TOWARD HYPERMEDIA-ENHANCED INSTRUCTION** .................................................. 122
Malgorzata S. Zywno, Ryerson University

**ASSESSMENT OF ACTIVE LEARNING WITH UPPER DIVISION COMPUTER SCIENCE STUDENTS** ............... 123
Brenda Timmerman, California State University, Northridge and Robert Lingard, California State University, Northridge

**WORK IN PROGRESS - MATH READINESS: THE IMPLICATIONS FOR ENGINEERING MAJORS** ............... 123
Lloyd R. Heinze, Texas Tech University, James M. Gregory, Texas Tech University and John Rivera, Texas Tech University

**WORK IN PROGRESS - NEW QUESTIONS ABOUT LEARNING STYLES** ................................................. 123
Cesar Malavé, Texas A & M University, Renato V. Belhot, Universidade de São Paulo at São Carlos and Reginaldo S. Figueiredo, Universidade Federal de São Carlos

A RESOURCE FOR TEACHING A LEARNING STYLES/TEAMWORK MODULE WITH THE SOLOMAN-FELDER INDEX OF LEARNING STYLES ............................................ 123
Julie E. Sharp, Vanderbilt University

**ACTIVE LEARNING USING MECHATRONICS IN A FRESHMAN INFORMATION TECHNOLOGY COURSE** ............ 123
Douglas Wolfe, United States Military Academy, Karl A. Gossett, United States Military Academy, Peter Hanlon, United States Military Academy and Curtis A. Carver Jr., United States Military Academy

**ENERGY: AN INTEGRATED AND NONTRADITIONAL APPROACH** ...................................................... 124
John R. Fanchi, Colorado School of Mines

**EXPLORING DESIGN THROUGH GAME** ................................................................................................. 124
Eunice Ratna Sari, translate-easy.com

**COMBINING RENEWABLE ENERGY AND DESIGN-FOR-MANUFACTURING RESEARCH IN AN UNDERGRADUATE RESEARCH PROJECT** ..................................................... 124
John T. Tester, Northern Arizona University

**CONSUMER PRODUCT DESIGN** ............................................................................................................ 124
Sridhar Condoor, Saint Louis University and Jose Quijano, Saint Louis University

**WORK IN PROGRESS - RENEWABLE ENERGY BASED CAPSTONE DESIGN APPLICATIONS FOR AN UNDERGRADUATE ENGINEERING TECHNOLOGY CURRICULUM** .......................................................... 125
Recayi Pecen, University of Northern Iowa, Teresa J Hall, University of Northern Iowa, Fanarious Chalkiadakis, University of Northern Iowa and Ayhan Zora, University of Northern Iowa

**2D AND 3D INTRODUCTORY PROCESSES IN VIRTUAL GROUPS** .......................................................... 125
Tony Clear, Auckland University of Technology and Mats Daniels, Uppsala University

**GROUP-BASED LEARNING IN INTERNATIONALLY DISTRIBUTED TEAMS: AN EVALUATION OF A CROSS ATLANTIC EXPERIMENT** ......................................................... 125
Paulien M. Herder, Assistant professor and Ellen Sjoer, Assistant professor

**PERFORMANCE IN INTERNATIONAL COMPUTER SCIENCE COLLABORATION BETWEEN DISTRIBUTED STUDENT TEAMS** ......................................................... 125
Martha Lucia Hause, The Open University, Marian Petre, The Open University and Mark Wodroffe, The Open University

**WORK IN PROGRESS - LEARNING COMPUTER NETWORKS IN AN INTERNATIONALLY DISTRIBUTED COURSE** ........................................................................................................ 126
Anders Berglund, Uppsala University

**UNDERSTANDING THE GROUP DEVELOPMENT PROCESS IN GLOBAL SOFTWARE TEAMS** .................. 126
Mary Z Last, St. Edward's University
MEAD, MANAGING EDUCATION WITH TEACHERS AT A DISTANCE ................................................................. 126
Mats Daniels, Uppsala University, Uppsala, Sweden, Kristine Faulkner, South Bank University, London, UK and Ian Newman, Loughborough University, Loughborough, UK

Session S1G: Panel: Initial Experiences in ABET Accreditation of Software Engineering Programs
Chair: Mark J. Sebern, Milwaukee School of Engineering
Time and place: Saturday, 8:30 am - 10:15 am Standley I
INITIAL EXPERIENCES IN ABET ACCREDITATION OF SOFTWARE ENGINEERING PROGRAMS ........................ 126
Mark J. Sebern, Milwaukee School of Engineering, Mark Ardis, Rose-Hulman Institute of Technology, Robert Hasker, University of Wisconsin - Platteville, James McDonald, Monmouth University, Donna Reese, Mississippi State University, James Vallino, Rochester Institute of Technology and Stuart Zweben, Ohio State University

Session S1H: Special Session: Incident at Morales: An Engineering Ethics Video
Chair: Michael C. Loui, University of Illinois at Urbana-Champaign
Time and place: Saturday, 8:30 am - 10:15 am Standley II
INCIDENT AT MORALES: AN ENGINEERING ETHICS VIDEO ................................................................. 127
Michael C. Loui, University of Illinois at Urbana-Champaign, E. Walter LeFevre, University of Arkansas, Steven P. Nichols, University of Texas at Austin, Carl M. Skooglund, Texas Instruments, Inc., Jimmy H. Smith, Texas Tech University, Frederick Suppe, Texas Tech University, Philip E. Ulmer, Consulting Engineer and Vivian Weil, Illinois Institute of Technology

Session S2A: Ethics
Chair: Eric Soulsby, University of Connecticut
Time and place: Saturday, 10:30 am - 12:15 pm Cotton Creek I
MORAL DILEMMAS: ETHICS IN A SENIOR SEMINAR ................................................................. 127
John R. Fanchi, Colorado School of Mines
AN EXAMINATION OF THE RELATIONSHIP BETWEEN ACADEMIC DISHONESTY AND PROFESSIONAL BEHAVIOR ......................................................................................... 127
Trevor S. Harding, Kettering University, Honor J. Passow, University of Michigan, Donald D. Carpenter, Lawrence Technological University and Cynthia J. Finelli, University of Michigan
WORK IN PROGRESS - TEACHING PRODUCT LIABILITY AS AN ETHICAL ISSUE IN ENGINEERING AND COMPUTER SCIENCE ................................. 127
Joseph R. Herkert, North Carolina State University and Brian M. O'Connell, Central Connecticut State University
EMBEDDING ETHICS INTO AN ENGINEERING CURRICULUM ......................................................... 127
Shirley Fleischmann, Grand Valley State University
TEACHING ETHICS IN THE ENGINEERING DESIGN PROCESS: A LEGAL SCHOLAR S PERSPECTIVE ........ 128
Vincent M. Brannigan, University of Maryland
ASSESSING STUDENTS' ABILITIES TO RESOLVE ETHICAL DILEMMAS ......................................................... 128
Mark Sindelar, University of Pittsburgh, Larry Shuman, University of Pittsburgh, Mary Besterfield-Sacre, University of Pittsburgh, Ronald L. Miller, Colorado School of Mines, Carl Mitcham, Colorado School of Mines, Barbara M. Olds, Colorado School of Mines, Rosa Pinkus, University of Pittsburgh and Harvey Wolfe, University of Pittsburgh

Session S2B: Teaching Design through Course Projects
Chair: Frederick Berry, Rose-Hulman Institute of Technology
Time and place: Saturday, 10:30 am - 12:15 pm Cotton Creek II
DESIGN COURSE PROJECTS THAT AID PERSONS WITH DISABILITIES .............................................. 128
Allen H. Hoffman, Worcester Polytechnic Institute and Holly K. Ault, Worcester Polytechnic Institute
LESSONS LEARNED FROM AN INTEGRATED SENIOR PROJECT ......................................................... 129
Marilyn A. Dyrud, Oregon Institute of Technology
WORK IN PROGRESS - SUCCESSFUL INDUSTRY ADVISORY BOARD INVOLVEMENT IN THE CAPSTONE DESIGN EXPERIENCE ................................................................. 129
Kathleen Ann Kramer, University of San Diego
THE CAPSTONE SENIOR DESIGN COURSE: AN INITIATIVE IN PARTNERING WITH INDUSTRY .......... 129
Kenneth J. Christensen, University of South Florida and Dewey Rundus, University of South Florida

Proceedings IEEE Catalog Number: 03CH37487/$17.00 November 5 - 8, 2003, Boulder, Colorado 33rd ASEE/IEEE Frontiers in Education Conference 49
Session S2C: Issues in Software Engineering Education

Chair: Heidi Ellis, Rensselaer at Hartford
Time and place: Saturday, 10:30 am - 12:15 pm

- C-REQUIREMENTS SPECIFICATION TEACHING ................................................................. 130
  Francisco J. García, University of Salamanca and María N. Moreno, University of Salamanca

- LEFT CASE - A FREE SOFTWARE COMPONENT-BASED CASE TOOL FOR SOFTWARE ENGINEERING
  PRACTICE SUPPORT ........................................................................................................ 130
  Francisco J. García, University of Salamanca and Iván Álvarez, University of Salamanca

- THE AGILE APPROACH IN AN UNDERGRADUATE SOFTWARE ENGINEERING COURSE PROJECT 130
  Thomas Reichlmayr, Rochester Institute of Technology

- DESIGN PATTERNS: EVOLVING FROM PASSIVE TO ACTIVE LEARNING ............................. 130
  James Vallino, Rochester Institute of Technology

- A FRAMEWORK FOR A WEB-BASED TOOLSET TO SUPPORT THE TEACHING OF SOFTWARE AND
  WEB ENGINEERING ......................................................................................................... 131
  Mike Lockyer, University of Teesside, Gary Griffiths, University of Teesside, Barry Hebbron, Uni-
  versity of Teesside and Briony Oates, University of Teesside

- A CSCW AND PROJECT MANAGEMENT TOOL FOR LEARNING SOFTWARE ENGINEERING 131
  Dirk Draheim, Freie Universität Berlin

Session S2D: Knowing Our Students 2

Chair: Richard B. Griffin, Texas A&M University
Time and place: Saturday, 10:30 am - 12:15 pm

- WORK IN PROGRESS - MENTORING UNDERGRADUATE STUDENTS IN ENGINEERING ........ 131
  Jay Banerjee, University of Puerto Rico at Mayagüez

- WORK IN PROGRESS - TRACKING K-12 STUDENTS AFTER PARTICIPATION IN OUTREACH PROGRAMS 131
  C. Wayne Unsell, Interim Dean and Carol Dostal, Director Of Outreach Programs

- MAKING A MID-COURSE CORRECTION: TRYING TO SALVAGE A COURSE IN TROUBLE .......... 131
  Larry G. Richards, University of Virginia

- GRADUATE-UNDERGRADUATE INTERACTION IN WIRELESS APPLICATIONS RESEARCH AND
  DEVELOPMENT .................................................................................................................. 132
  Simon G. M. Koo, Purdue University, Adegbile Adewunmi, Purdue University, Jeongjoon Lee, Pur-
  due University, Yat Chung Lee, Purdue University and Catherine Rosenberg, Purdue University

- WHAT IS GOOD TEACHING OF COMPUTER NETWORKS? ................................................. 132
  Anders Berglund, Uppsala University

Session S2E: Technology for Teaching

Chair: Tom Lookabaugh, University of Colorado
Time and place: Saturday, 10:30 am - 12:15 pm

- WORK IN PROGRESS - USING COMPUTER ASSISTED CLASSROOMS .............................. 132
  Dan Budny, University of Pittsburgh, Rich Colwell, University of Pittsburgh and Dan Derence, Uni-
  versity of Pittsburgh

- SOFTWARE FOR TAKING NOTES IN CLASS .................................................................... 132
  Nigel G. Ward, University of Texas at El Paso and Hajime Tatsukawa, NTT Communications

- INCREASING STUDENT PARTICIPATION IN A NETWORKED CLASSROOM ..................... 132
  Thomas Gross, ETH Zurich, Levente Szekreynes, ETH Zurich and Cristian Tuduce, ETH Zurich

- WHERE ARE YOU? WIRELESS WAY'S TO ENHANCE COLLABORATION ........................ 133
  Arnold Neville Pears, Uppsala University and Marc-Aurele Brother, S h o c k f i s h SA

- WORK IN PROGRESS: "VIDEO FAQS -- INSTRUCTION-ON-DEMAND" ......................... 133
  Kenneth L. Alford, United States Military Academy
SESSION S2F: WEB-BASED INSTRUCTION 5

Chair: Terence Ahern, California State University Monterey Bay

Time and place: Saturday, 10:30 am - 12:15 pm

WORK IN PROGRESS: SUPPORTING LEARNER-CENTERED INFORMATION AND COMMUNICATION TECHNOLOGY THROUGH ENGINEERING CAPSTONE PROJECT ELECTRONIC PORTFOLIOS .......................... 133

THE VIRTUAL CLASSROOM EXPERIENCE .................................................. 133
Barbara Bernal Thomas, Southern Polytechnic State University

WORK IN PROGRESS: MODULARIZATION OF ENGINEERING COURSES USING HTML CONTENT .......................... 133
Thomas P. Cathcart, Mississippi State University

WORK IN PROGRESS: INDIVIDUALIZING LEARNING IN A VIRTUAL LEARNING ENVIRONMENT .......................... 134
Fanny Klett, Ilmenau Technical University / Germany

PROJECT BASED LEARNING IN INTERNET .................................................. 134
Domenico Ponta, University of Genoa, Giuliano Donzellini, University of Genoa and Hannu Markkanen, EVTEK

JIT TECHNOLOGY SUPPORT MODULES IN PROBABILITY AND STATISTICS ........................................... 134
Stuart D. Kellogg, South Dakota School of Mines & Technology

SESSION S2G: MINI-KEYNOTE: PROFESSIONAL DEVELOPMENT AT CONSTRUX SOFTWARE

Chair: Stephen Seidman, New Jersey Institute of Technology

Time and place: Saturday, 10:30 am - 12:15 pm

PROFESSIONAL DEVELOPMENT AT CONSTRUX SOFTWARE .................................................. 134
Steve McConnell, Construx Software

SESSION S2H: SPECIAL SESSION: DESIGNING EDUCATION RESEARCH: A MENTORING OPPORTUNITY

Chair: Alisha A. Waller, Georgia State University

Time and place: Saturday, 10:30 am - 12:15 pm

DESIGNING EDUCATION RESEARCH: A MENTORING OPPORTUNITY ........................................... 134
Alisha A. Waller, Georgia State University and David DiBiasio, Worcester Polytechnic Institute

SESSION S3A: CURRICULUM INTEGRATION 1

Chair: Anthony Marchese, Rowan University

Time and place: Saturday, 2:00 pm - 3:45 pm

ENHANCING BIOENGINEERING OPPORTUNITIES FOR ENGINEERING MAJORS ........................................... 135
Vernicka K. Tyson, Michigan State University, Melissa J. Baumann, Michigan State University, Roger G. Baldwin, Michigan State University and P. David Fisher, Michigan State University

THE UNIVERSITY OF HAWAII CUBESAT: A MULTIDISCIPLINARY UNDERGRADUATE ENGINEERING PROJECT ........................................... 135
Wayne A. Shiroma, University of Hawaii, Aaron T. Ohta, University of Hawaii and Michael A. Tamamoto, University of Hawaii

USING A DESIGN DOCUMENT TO SUPPORT INTERDISCIPLINARY LEARNING ........................................... 135
Diane T. Rover, Iowa State University, Julie A. Dickerson, Iowa State University, Carolina Cruz-Neira, Iowa State University, Robert J. Weber, Iowa State University, Kukjin Lee, Iowa State University and Zheng Min, Iowa State University

WORK IN PROGRESS: A NOVEL INTRODUCTORY GRADUATE COURSE FOR ELECTRICAL ENGINEERS ........................................... 135
Thyagarajan Srinivasan, Wilkes University

THE ENGINEERING CURRICULUM FOR 2020: VALUES, VARIABILITY, IMPROVEMENT AND KNOWLEDGE ........................................... 135
John Hadjilogiou, Florida Institute of Technology

SESSION S3B: TEACHING VIA DESIGN

Chair: P. K. Imbrie, Purdue University

Time and place: Saturday, 2:00 pm - 3:45 pm

WORK IN PROGRESS: INTEGRATING CONCEPTS OF DECISION MAKING AND UNCERTAINTY INTO ENGINEERING DESIGN EDUCATION ........................................... 136
Sven K. Esche, Stevens Institute of Technology and Constantin Chassapis, Stevens Institute of Technology

PROCEEDINGS IEEE CATALOG NUMBER: 03CH37487/$17.00 November 5 - 8, 2003, Boulder, Colorado 33rd ASEE/IEEE Frontiers in Education Conference
A JUNIOR COURSE IN ELECTRICAL ENGINEERING PRACTICE TO PREPARE STUDENTS FOR
THE SENIOR DESIGN EXPERIENCE .......................................................... 136
Ladimer S. Nagurney, University of Hartford

WORK IN PROGRESS - INTEGRATING MAJOR DESIGN EXPERIENCE THROUGHOUT A SMALL CIVIL
ENGINEERING PROGRAM ................................................................. 136
Karen C. Chou, Minnesota State University and W. James Wilde, Minnesota State University

TEACHING INTRODUCTORY FLUIDS THROUGH FOUNTAIN DESIGN ......................... 136
Adrian Hanson, NMSU, Salim Bawizar, NMSU, Kenneth Stevens, NMSU and Jason Capron,
NMSU

ENHANCING UNDERSTANDING OF CONCEPTS IN MECHANICS OF MATERIALS USING DESIGN ........ 136
Madhukar Vable, Michigan Technological University

Session S3C: Programs and Curricula in Software Engineering
Chair: Fernando Naveda, Rochester Institute of Technology

Time and place: Saturday, 2:00 pm - 3:45 pm Meadowbrook I

SOFTWARE ENGINEERING BACCALAUREATE PROGRAMS IN THE UNITED STATES: AN OVERVIEW .... 137
Donald J. Bagert, Rose-Hulman Institute of Technology and Mark A. Ardis, Rose-Hulman Institute
of Technology

WORK IN PROGRESS - THE SWENET PROJECT: BRIDGING THE GAP FROM BODIES OF KNOWLEDGE
TO CURRICULUM DEVELOPMENT .......................................................... 137
Michael J. Lutz, Rochester Institute of Technology, Thomas B. Hilburn, Embry-Riddle Aeronautical
University, Gregory W. Hislop, Drexel University, W. Michael McCracken, Georgia Institute of
Technology and Mark J. Sebern, Milwaukee School of Engineering

REPORT FROM THE TRENCHES: APPLYING THE SEEK & SWEBOK TO BSSE PROGRAM DEVELOPMENT ... 137
Stephen Frezza, Gannon University, Sreela Sassi, Gannon University and Jaehoon Seol, Gannon
University

A COLLABORATIVE BACHELOR'S DEGREE IN SOFTWARE ENGINEERING .......................... 137
Gregory W. Hislop, Drexel University, Spiros Mancoridis, Drexel University and P. M. Shankar,
Drexel University

SWEBOK GUIDE: AN OVERVIEW OF TRIAL USAGES IN THE FIELD OF EDUCATION ............... 137
Robert Dupuis, UQAM, Pierre Bourque, École de Technologie Supérieure and Alain Abran, École
de Technologie

IEEE-CS/ACM COMPUTING CURRICULA - SOFTWARE ENGINEERING VOLUME .................... 138
Richard LeBlanc, Georgia Institute of Technology, Atlanta, GA, Ann Sobel, Miami University,
Oxford, OH, Thomas Hilburn, Embry-Riddle Aeronautical University, Daytona Beach, FL and
Andrew McGettrick, University of Strathclyde, United Kingdom

Session S3D: Students Working Together
Chair: Mary Z. Last, St. Edward's University

Time and place: Saturday, 2:00 pm - 3:45 pm Meadowbrook II

WORK IN PROGRESS - A SURVEY OF GROUP WORK WITHIN COMPUTER SCIENCE PROGRAMS .... 138
Kenneth L. Alford, United States Military Academy and Anthony S. Ruocco, Roger Williams Uni-
versity

WORK IN PROGRESS - DISTANCE COLLABORATION AND RAPID PROTOTYPING IN A
FRESHMAN DESIGN TEAM EXPERIENCE ............................................. 138
Jack Leifer, University of Kentucky and Jamey D. Jacob, University of Kentucky

WORK IN PROGRESS - DESIGNING A NEW LEARNING ENVIRONMENT IN INTRODUCTORY
ENGINEERING COURSES AT HUMBOLDT STATE UNIVERSITY ......................... 138
Elizabeth A. Eschenbach, Humboldt State University, Eileen M. Cashman, Humboldt State Univer-
sity, Doreen M. Espinoza, Michigan State University and Jeffery W. White, Humboldt State Univer-
sity

WORK IN PROGRESS - BASIC MECHANICS: LEARNING BY TEACHING .............................. 138
Maggie Pollock, University of Glasgow

WORK IN PROGRESS - CONTINUING STUDY OF IMPROVEMENT ON EXAM SCORES DUE TO
IMPLEMENTATION OF COLLABORATIVE TECHNIQUES .................................. 139
Kenneth Reid, Purdue University Indianapolis (IUPUI)
Session S3E: Undergraduate Research

Chair: Lynne Slivovsky, Cal Poly - San Luis Obispo

Time and place: Saturday, 2:00 pm - 3:45 pm

Location: Waverly

WORK IN PROGRESS - UNDERGRADUATE RESEARCH AND THE ACADEMIC LABORATORY
Djafar K. Mynbaev, New York City College of Technology

APPLYING RESEARCH METHODOLOGY TO UNDERGRADUATE COURSES
Osvaldo Clua, University of Buenos Aires and Maria Feldgen, University of Buenos Aires

HOW A FRESHMAN LEVEL RESEARCH INITIATIVE EVOLVED INTO MULTIDISCIPLINARY TEACHING TOOLS
Jeffrey R. Mountain, The University of Texas at Tyler, Angela D. Riddick, The University of Texas at Tyler, Sean T. Droptini, The University of Texas at Tyler and John F. Montgomery, The University of Texas at Tyler

WORK IN PROGRESS - THE USE OF RESEARCH ACTIVITIES AS LEARNING INSTRUMENT IN ELECTRICAL ENGINEERING AND COMPUTER SCIENCE GRADUATIONS
Carlos Augusto Martins, PUC Minas, Milene Barbosa Carvalho, PUC Minas, Christiane Vilaça Pousa, PUC Minas and Dulcineia Oliveira Penha, PUC Minas

Session S3F: Web-based Instructional Tools

Chair: Amruth Kumar, Ramapo College of New Jersey

Time and place: Saturday, 2:00 pm - 3:45 pm

Location: Windsor

AUTOMATICALLY GRADING OF STUDENT'S PROGRAMMING ASSIGNMENTS: AN INTERACTIVE PROCESS AND SUITE OF PROGRAMS
Derek Morris, Rutgers University

A NOVEL WEB-BASED ONLINE EXAMINATION SYSTEM FOR COMPUTER SCIENCE EDUCATION
Zhenming Yuan, Hangzhou Teacher's College, Liang Zhang, Hangzhou Teacher's College and Guohua Zhan, Hangzhou Teacher's College

A TEACHER FRIENDLY ENVIRONMENT TO FOSTER REUSABILITY AND LEARNER-CENTERED CUSTOMIZATION IN THE DEVELOPMENT OF INTERACTIVE EDUCATIONAL PACKAGES
Dante Del Corso, Politecnico di Torino, Gaetano Morrone, COREP and Emanuela Ovcin, COREP

IMPROVING THE EVALUATION OF PROGRAMMING COURSES
Yu-Liang Chi, Dept. of MIS, Chung-Yuan Christian University

CUSTOMER-FOCUSED GRADUATE EDUCATION IN A REAL-TIME DISTANCE ENVIRONMENT
Edward F. Mykytka, University of Dayton

EXPERIENCES IN WEB-BASED GRADING
David W. Juedes, Ohio University

Session S3G: Panel: Computing Curricula 2004: The Overview Project

Chair: Russell Shackelford, Stanford

Time and place: Saturday, 2:00 pm - 3:45 pm

Location: Standley I

COMPUTING CURRICULA 2004: THE OVERVIEW PROJECT

Session S3H: Special Session: Why are Some Science and Engineering Concepts So Difficult to Learn? Identifying, Assessing, and "Repairing" Student Misunderstanding of Important Concepts

Chair: Ruth A. Streveler, Colorado School of Mines

Time and place: Saturday, 2:00 pm - 3:45 pm

Location: Standley II

WHY ARE SOME SCIENCE AND ENGINEERING CONCEPTS SO DIFFICULT TO LEARN? IDENTIFYING, ASSESSING, AND "REPAIRING" STUDENT MISUNDERSTANDING OF IMPORTANT CONCEPTS
Ruth A. Streveler, Colorado School of Mines, Mary A. Nelson, University of Colorado - Boulder, Barbara M. Olds, Colorado School of Mines and Ronald L. Miller, Colorado School of Mines

Session S4A: Curriculum Integration 2

Chair: Madhukar Vable, Michigan Technological University

Time and place: Saturday, 4:00 pm - 5:45 pm

Location: Cotton Creek I
A SUCCESSFUL EXPERIMENT IN CURRICULUM INTEGRATION: INTEGRATED SCIENCE & TECHNOLOGY AT JAMES MADISON UNIVERSITY ................................................. 142
Ronald George Kander, James Madison University

THE INTERDISCIPLINARY UNDERGRADUATE CURRICULUM AT THE UNIVERSITY OF DENVER ............. 142
Kimberly E Newman, University of Denver, Albert J Rosa, University of Denver, Ronald R DeLyser, University of Denver, Sheila S Thompson, University of Denver and Robert K Whitman, University of Denver

MATERIALS SCIENCE IN CONTEXT USING DESIGN PARAMETERS FOR MUSICAL INSTRUMENTS .......... 142
Kathleen Leone Kitto, Western Washington University

A NOVEL APPROACH TO INTEGRATING DESIGN INTO MANUFACTURING AND MATERIALS EDUCATION THROUGH THE FABRICATION OF A SCALE MODEL CANNON ........................................... 143
Jeremy Lynn Weinstein, Texas A&M University and Richard Griffin, Texas A&M University

WORK IN PROGRESS - AN UNDERGRADUATE COURSE IN TECHNOLOGY AND THE POLITICAL PROCESS 143
David R. Luginbuhl, Western Carolina University and Gibbs Knotts, Western Carolina University

Session S4B: Developments in Accreditation and Related Activities
Chair: Steve Krause, Arizona State University
Time and place: Saturday, 4:00 pm - 5:45 pm  Cotton Creek II

WORK IN PROGRESS - PERCEPTIONS ON EFFECTIVE ENGINEERING EDUCATION .............................. 143
Abdallah Shanableh, University of Sharjah, Maher Omar, University of Sharjah, Bassem Younes, University of Sharjah and Samer Barakat, University of Sharjah

ENGINEERING ACCREDITATION IN BRAZIL ........................................................................... 143
Mauricio Dziedzic, Centro Universitario Positivo and Marcos Jose Tozzi, Centro Univeristario Positivo

WORK IN PROGRESS - A STRUCTURED SURVEY TO INVENTORY EC 2000 INSTRUCTIONAL MATERIALS . .143
Russell Pimmel, University of Alabama, Rita Caso, Texas A&M University, Pete Morley, University of Alabama, Susan Haag, Arizona State University and Emily Fowler, University of Massachusetts - Dartmouth

WORK IN PROGRESS - OBSERVATIONS ON 10 YEARS OF FOUNDATION COALITION CURRICULA CHANGE EFFORTS ................................................................. 144
Jim Richardson, University of Alabama, Prudence Merton, Texas A&M University, Jeff Froyd, Texas A&M University and Carolyn Clark, Texas A&M University

Session S4C: Software Engineering Projects
Chair: Michael Lutz, Rochester Institute of Technology
Time and place: Saturday, 4:00 pm - 5:45 pm  Meadowbrook I

AN INTEGRATED APPROACH TO INSTRUCTION IN DEBUGGING COMPUTER PROGRAMS .................... 144
Ryan Chmielewski, University of Illinois at Urbana-Champaign and Michael Conrad Loui, University of Illinois at Urbana-Champaign

INTERDISCIPLINARY TEAM TEACHING IMPROVEMENTS ............................................................... 144
James R. Rowland, University of Kansas

WORK IN PROGRESS - A SOFTWARE ENGINEERING PROJECT COURSE MODEL BASED ON STUDIO PRESENTATIONS .................................................................................. 144
Thomas B. Horton, University of Virginia and John C. Knight, University of Virginia

WORK IN PROGRESS - THE ELECTRONIC SOFTWARE PORTFOLIO AS AN EXAMPLE OF ACTIVE TESTING 144
Ronald Finkbine, Indiana University Southeast

DEVELOPING TEAMWORK AND COMMUNICATION SKILLS IN A MULTIDISCIPLINARY EXPERIMENT .... 145
Daniela Rosca, Monmouth University

WORK IN PROGRESS - GROWING A SOFTWARE QUALITY CULTURE IN AN EDUCATIONAL ENVIRONMENT 145
Trudy Howles, Rochester Institute of Technology

Session S4D: Student Teams
Chair: Dirk Draheim, Freie Universitat Berlin
Time and place: Saturday, 4:00 pm - 5:45 pm  Meadowbrook II
STUDENT TEAM PROJECTS IN A HEAT TRANSFER LABORATORY: A REVIEW OF THE PAST AND FUTURE DIRECTIONS ................................................................. 145
Sameer V Naik, Purdue University, Robert J Schoenhals, Purdue University and Bashar S Abdul-Nour, Ford Motor Company

WORK IN PROGRESS - USING ASSESSMENT TO IMPROVE TEAMS IN ENGINEERING EDUCATION .................. 145
Theodore A. Powers, University of Massachusetts Dartmouth, Richard Upchurch, University of Massachusetts Dartmouth and Samantha L. Stokes, University of Massachusetts Dartmouth

REALITY CHECK: STUDENT REFLECTION ON GROUPWORK .................. 146
David R Chesney, The University of Michigan

COLLABORATIVE, GOAL-ORIENTED MANIPULATION OF ARTIFACTS BY STUDENTS DURING STATICS LECTURE ................................................................. 146
Paul S. Steif, Carnegie Mellon University and Anna Dollár, Miami University

WORK IN PROGRESS - BUILDING ENGINEERING TEAM SKILLS, PHASE ONE: INDUSTRY VALUES AND BEST PRACTICES ......................................................... 146
David M. Bowen, California State University, Hayward

PROBLEM CENTRED LEARNING-TO-RESEARCH ................................................................. 146
John Kelvin Pollard, University College London

Session S4E: Mobile and Wireless Innovations

Chair: David Voltmer, Rose-Hulman Institute of Technology

Time and place: Saturday, 4:00 pm - 5:45 pm  Waverly

A LEARNING ENVIRONMENT FOR MOBILE COMPUTING INTEGRATING J2ME AND SOFTWARE COMPONENTS ................................................................. 147
Ivan João Foschini, Universidade Federal de São Carlos and Sérgio Donizetti Zorzo, Universidade Federal de São Carlos

INSTRUCTIONAL TESTING THROUGH WIRELESS HANDHELD DEVICES ................................................................. 147
Cerise Wuthrich, Midwestern State University, Ranette Halverson, Midwestern State University, Terry W. Griffin, Midwestern State University and Nelson Luiz Passos, Midwestern State University

WORK IN PROGRESS - TEACHING WIRELESS COMMUNICATION CONCEPTS AND THEORIES USING COMMERCIAL SOFTWARE ......................................................... 147
Hazem H. Refai, The University of Oklahoma and John E. Fagan, University of Oklahoma

ADDING PDA'S TO YOUR TEACHING TOOLKIT ................................................................. 147
Kenneth L. Alford, United States Military Academy and John M.D. Hill, United States Military Academy

ENHANCING THE IN-CLASSROOM TEACHING/LEARNING EXPERIENCE USING WIRELESS TECHNOLOGY ................................................................. 148
Adegbile Adewunmi, Purdue University, Catherine Rosenberg, Purdue University, Adeoluwa Sun-Basorun, Purdue University and Simon G. M. Koo, Purdue University

Session S4F: Information Technology Education

Chair: Fadi Deek, New Jersey Institute of Technology

Time and place: Saturday, 4:00 pm - 5:45 pm  Windsor

AUSTRALIAN EXPERIENCES WITH DESIGNING AND IMPLEMENTING OF E-COMMERCE DEGREES ................................................................. 148
Andrew Nafalski, University of South Australia and Andy Koronios, University of South Australia

CHARACTERIZING INFORMATION TECHNOLOGY THROUGH FACULTY RESEARCH ................................................................. 148
Michael G. Bailey, Brigham Young University

RECENT DEVELOPMENTS IN ACCREDITATION OF COMPUTING PROGRAMS ................................................................. 148
John T. Gorgone, Bentley College, Doris K. Lidtke, Towson University and Jim Leone, Rochester Institute of Technology

EXCITE: ENABLING X--CAMPUS INFORMATION TECHNOLOGY EDUCATION ................................................................. 148
W. Richards Adrion, University of Massachusetts Amherst, Wayne Burleson, University of Massachusetts Amherst, Wendy Cooper, University of Massachusetts Amherst, William L. Israel, University of Massachusetts Amherst, James Kurose, University of Massachusetts Amherst and Kenneth Watts, University of Massachusetts Amherst

WORK IN PROGRESS - EFFECTIVE TEACHING IN THEORETICAL IT MODULES ................................................................. 149
Mark Robbins, London Metropolitan University, Igor Schagaev, London Metropolitan University and Jim Yip, London Metropolitan University
Session S4G: Panel: Computing Curricula: Computer Engineering
Chair: Pradip K. Srimani, Clemson University
Time and place: Saturday, 4:00 pm - 5:45 pm  

PANEL ON COMPUTING CURRICULA: COMPUTER ENGINEERING ................................. 149
Pradip K Srimani, Clemson University, Gerald Engel, University of Connecticut, John Impagliazzo,
Hofstra University and Andrew McGettrick, University of Strathclyde

Session S4H: FIE Feedback and Ideas for the Future
Chair: Joseph Hughes, Georgia Institute of Technology
Time and place: Saturday, 4:00 pm - 5:45 pm  

FIE FEEDBACK AND IDEAS FOR THE FUTURE ......................................................... 149
Joseph Hughes, Georgia Institute of Technology
