Go to Puerto Rico!

July 23 - 28, 2006
San Juan, Puerto Rico, USA

International Conference on Engineering Education

Abstracts Due:
February 28, 2006

http://icee2006.uprm.edu
Venue and Accommodations

ICEE 2006 will be held at the Wyndham Condado Plaza Hotel & Casino. From the luxury hotel itself to the attractions of San Juan (capital city) and the Condado strip, you'll have the best Puerto Rico offers.

Puerto Rico is a commonwealth of the United States. It is an island 100 by 35 miles wide — but don’t let these measurements fool you. Close to 4 million people live on the “Island of Enchantment,” with more than a million in the greater San Juan metropolitan area alone. Both Spanish and English are the official languages, the local currency is the U.S. dollar, and no visas or passports are required to enter Puerto Rico from the United States.

The climate is as close to perfect as it can get, averaging 83°F (22.7°C) in the winter and 85°F (29.4°C) in other words it’s always summer!!!

About ICEE

Organized as an information dissemination and exchange forum, the International Conference on Engineering Education emphasizes the dissemination of information on state-of-the-art advances in education and research, especially innovative approaches that link the two activities in addressing the education goals of new engineers of the 21st century.

ICEE programming also emphasizes the importance of transnational cooperation and cross-cultural networking to advance the effectiveness of engineering education. It is a conference series that highlights the worldwide progress and experiences in engineering education; it is also a platform for forging mutually beneficial collaborative efforts.

The International Network for Engineering Education and Research (iNEER) is the principal sponsor of the International Conference on Engineering Education (ICEE). In coordination with the ICEE International Steering Committee (ISC), iNEER encourages innovative ideas and models for international cooperation. It also encourages new proposals to host the ICEE or similar conferences and workshops. The Network also helps develop collaborative initiatives emanating from these get-togethers.
